- ★ USA Hemp

Consumers are increasingly discovering the benefits of CBD products and using them as natural alternatives to their prescription medications in order to relieve chronic conditions and symptoms. We're a Boulder, Colorado-based producer of boutique CBD-infused products. These exceptional pain salves are hand made with only the highest quality ingredients, just for you. KMR relief's premium pain salve contains real essential oils, DMSO, and other skin mending ingredients so you can feel great!

REAL PAIN RELIEF

Thoroughly apply to your skin and rub it in completely for optimal efficacy. CBD applied to the skin will be most effective when it absorbs through the epidermis. This CBD salve is also excellent for healing tattoos!

BEST USED FOR

Muscle pain

Migraines

Inflammation

Chronic pain

Chafed skin

Arthritis

DOSAGE RECOMMENDATIONS

Use in approximately 1 gram portions at a time. For athletic usage, deep muscle soreness, and chronic pain, we recommend using one of our higher dosage pain salve containers (1500mg+) for optimal results. Multiple applications may be required.

This pain salve also includes DMSO, an ingredient known to help new tattoos, wounds, burns, and muscle aches heal faster. Along with CBD and other essential oils, KMRelief's premium CBD pain salve can be used for almost anything. Be careful not to apply to broken skin or a direct wound.

KMRelief makes no claims that its products will cure, treat, or relieve these or any symptoms. All of our products are made and packaged with the highest quality ingredients in a CDHDP compliant facility. We strive to have our products make a difference in people's lives but until regulations change, KMRelief's products have no FDA oversight.
