

HIGH/LOW STOOL RECYCLED ALUMINIUM

The Mater High Stool and Low Stool is designed by the Danish architect duo Space Copenhagen and is regarded as a *New Danish Classic*. With its organic yet minimalist style, this stool is suitable for both residential and commercial use. A part of the aluminium is derived from aluminium waste and the stool is sand casted by hand in a small Indian workshop. The upholstery is genuine leather.

CARE AND MAINTENANCE

Regular cleaning is recommended with a slightly damp, soft, lint-free cloth. Wipe dry with a dry, soft cloth.

In case of stains on aluminium; mix 1 tablespoon cream of tartar with one quart of lukewarm water. Apply the mixture on the aluminium with a soft cloth. If necessary scrub gently with a steel wool pad in a back and forth motion. Avoid using a circular motion as this can cause an uneven look. Be cautious not to scrub too hard with the steel wool as this can scratch the aluminium. Finish by applying a little bee wax on the surface to obtain the shine.

Do not use any cleaning agents on the seat as it could cause damaging of leather. In case of large-scale stains on the leather seat we advise you to contact a professional furniture cleaning service.

ITEM NO.	01022 High Stool 74 cm 01024 High Stool 69 cm 01023 Low Stool 47 cm
DESIGNER	Space Copenhagen DK
MATERIAL	Partly recycled aluminium with black leather seat
FINISH	Polished
