The Accent Table series designed by the renowned Danish architect duo, Space Copenhagen - first time presented in 2016 - is now launched in a natural oak edition. Combining a sculptural and handcrafted aesthetic, in hardwearing, yet distinguished, FSC-certified oak, with a matte white lacquer.

Following the same design bloodline as the highly successful Mater High Stool, the Accent Collection is a series of three coffee tables, an oval lounge table and two round dining table. The various sizes allow for creativity and flexibility in configuration, and creating different atmospheres for both home and public spaces.

Made in Europe, the FSC-certified oak with semi-porous structure is lacquered with a matte white PU-free lacquer. The Accent Table is a very honest and straightforward design, which is destined to become a classic.

## About the Designer

Space Copenhagen – established in 2005 by Signe Bindslev Henriksen and Peter Bundgaard Rützou, both graduated The Royal Danish Academy of Fine Arts, School of Architecture – is known for defying habits and employing a sincere personal vision to their design. The projects Space Copenhagen has turned their hands to include everything from interior design, to furniture and refined objects for everyday use as well as artistic installations and art direction.

These diverse areas are especially reflective of their ability to transcend many roles and apply their emotional method of working to a number of projects or products.

## About Mater

Mater was established in 2006 in Denmark by Henrik Marstrand, who had a vision to create iconic and beautiful design, based on an ethical business strategy. Through collaborations with an external network of established and fresh talent, Mater combines high-end furniture and lighting, constructed with methods that support people, local craft traditions and the environment.
