Imago Mirror Object is a line extension of the Imago Wall Hanger designed by the Danish duo PEDERJESSEN. The Imago Mirror Object is a sculptural wall-mounted mirror object, designed for use in hallways, bedrooms or living rooms or on any wall as a decorative reflecting objet d'art.

"Inspired by the name and shape in which anthropods take on during their final metamorphosis from cocoon to winged creature, the reflective metal used in the design catches the light as a butterfly does the air," says designer Lasse Jessen.

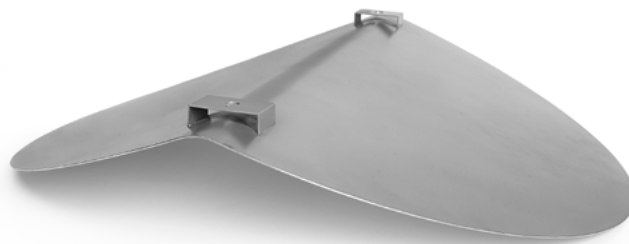

The metal sheet made from polished brass and polished stainless steel is lasercut and afterwards manually bend in 158 degrees. The result demonstrates the richness and simplicity of the materials.

About the Designer

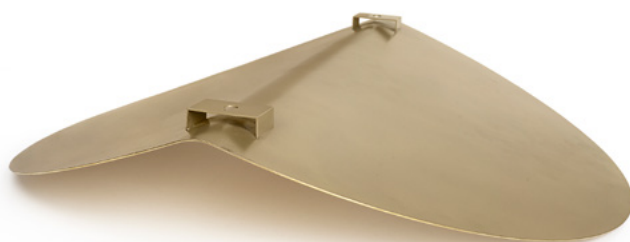

PEDERJESSEN is a Danish design studio established in 2015. Today run by Lasse Jessen, who has a background as industrial design engineer from University of Southern Denmark. Within furniture and lighting PEDERJESSEN is known for having a holistic approach to product development, always looking to experiment with new technologies and materials. The main ambition is to design functional and aesthetically durable products – on the basis of a combined traditionally and contemporary approach.

About Mater

Mater was established in 2006 in Denmark by Henrik Marstrand, who had a vision to create iconic and beautiful design, based on an ethical business strategy. Through collaborations with an external network of established and fresh talent, Mater combines high-end furniture and lighting, constructed with methods that support people, local craft traditions and the environment.
