

## BOWL TABLE

---

The Mater Bowl Table reconciles old Indian craftsmanship with the simplicity of Scandinavian design. The table top, made of sustainably sourced mango wood is turned on a lathe, showcasing the skill of Kharadi, an Indian wood turning community and supporting their local craftsmanship. The Bowl Table can stand alone or be paired as a side table vignette. The finish used on the table top is a lead-free, water-based PU lacquer. The legs are made of milled hollow steel rods and can be detached for ease of labour and transportation.

Indian mango wood is sustainably and responsively sourced timber - once the productive life of the tree is over another one is planted to replace it. The finish on the wood is a lead free water based clear PU lacquer that respects the local environment.

### CARE AND MAINTENANCE

In case of any spill clean immediately with a damp cloth. Wipe dry with a dry, soft cloth in the direction of the wood grain. Should not be treated with soap or other cleaning agents as it could cause damaging of the lacquered wood, unless recommended by professional.

We always recommend to use coasters under hot objects, such as coffee pots and cups. Protect the product from direct sunlight, excessive heat and sharp objects.
