

## EAT DINING TABLE

---

---

The Mater EAT Table is a new round dining table designed by the Danish craftsman Nis Fischer Christensen. The frame is crafted in solid oak and creates a light and Nordic appeal to the design. Eat is a result of simplified and solid craftsmanship.

Crafted in FSC certified, soaped oak with a durable eco-friendly linoleum surface, available in a green or a dark grey tone.

The table top is coated with 2.5 mm Forbo Marmoleum linoleum. Marmoleum is a longlasting and sustainable material derived from 97 % renewable and recycled material. The primary raw material is linseed oil derived from flax seed, resin and wood flour from recycled scrap wood from the timber industry. The finish is Topshield2 making the surface durable, bacteriostatic and easy to clean.

### CARE AND MAINTENANCE OF LINOLEUM

For general cleaning, wash the linoleum with a soft cloth and a solution of mild detergent and warm water. Rinse and dry with a soft cloth. Do not use powdered abrasives or other harsh cleansers like hypochlorite bleach; they may deface the surface and change the finish colour.
