

GEJST

SCENE

Michael Rem, 2013

Type Bookcase

Variant H

Colours Light Oak

Scene is a modular shelving system, designed by Michael Rem for Gejst. Module by module the shelving system can be build up high, extended to the sides and be customized with side panels, doors or back panels made in oak or black oak. The idea behind Scene is to create a frame to put the stories we form during our life on display. Our stories are captured in artifacts and objects full of sentimental value and with Scene you can tell your stories exactly how you want.
