# Chicken Feet & Chicken Bites

## CHICKEN FEET

Our chicken feet come from 100% premium chickens. The natural texture and shape of this treat promotes dental health benefits by cleaning teeth, and serves as a fully digestible toothbrush.

### Chicken Feet Are...

naturally rich in glucosamine and chondroitin, which are both known to support joint health and mobility.

We take extra precaution to completely remove the nails to ensure a safer snacking experience.

## CHICKEN BITES

Our chicken bites are made from 100% chicken meat. Chicken is cut into small bite-size pieces, then steamed and cooked, and finally dehydrated, making them crunchy and easy to chew. Easy to digest, and helps promote dental health.

### Rehydrate With...

warm water for 10-15 minutes for a softer dog snack. A pro tip is to mix the rehydrated pieces with other dog food to enhance flavor and nutritional value.
