Agility
Electric sit/stand desks

The **Agility** height adjustable desk range has been designed to improve the way we work, encouraging healthier working practices by allowing the user to seamlessly switch between sitting and standing.

The Agility Lite and Agility Pro each boast a variety of features designed to support the modern lifestyle and work habits. Perfect for any office, they empower the user to move and alternate between sitting, standing or perching positions and lower the risk of injuries and illness.

The Agility height adjustable desking solutions allow the user to easily stay active throughout the day and therefore boost the user's health and wellbeing.

Adjust the height of the desk electronically quickly and easily by using the four memory buttons on the control panel to ensure an ideal ergonomic and healthy working position.

The Agility Sit/Stand Desk range is available as a complete desk or as a frame.

The office furniture experts

CENTURY OFFICE

Agility Lite
electric sit/stand desks

The Agility Lite is available in multiple frame colours and desktop finishes. Designed with two motors, it's incredibly quiet with a sound level of less than 50dB. Featuring a height range of 645mm to 1295mm and adjustable width of 1100-1700mm.

Operated via LCD display control panel, the desk boasts four memorable display settings enabling the user to easily choose their desired height option. The control operates the movement of the three-part telescopic legs at a rate of 35mm per second, and comes with anti-crush features, making adjusting the height of the desk safe and easy.
