Visit us at www.rabbitair.com

Let's Begin! Do NOT discard the Washable Pre-Filter, filter frames or filter case. They are designed to be cleaned and reused.

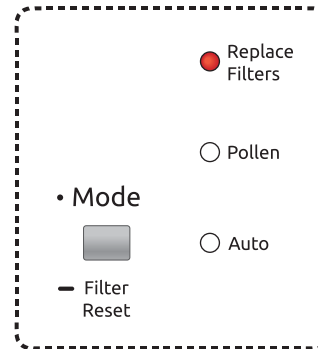

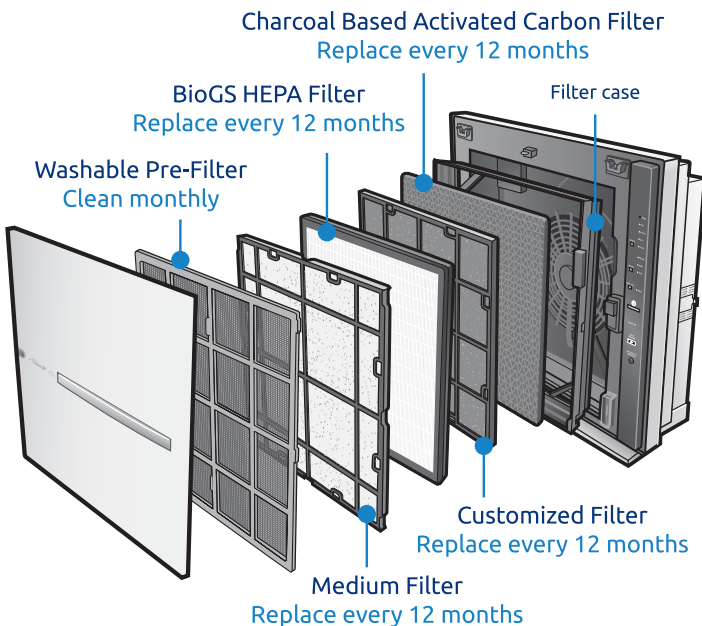

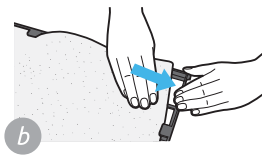

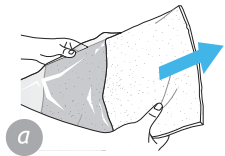

1. Remove the individual filters from the filter case.

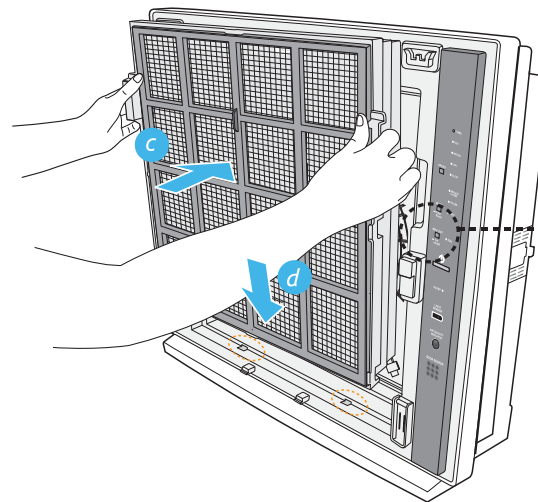

2. Remove the white Medium Filter and Customized Filter from their frames.

3. Unwrap the new replacement filters (a), insert new filters into their respective frames (b), and filter case in the order below:

5. Once you have replaced the filters, press and hold the Mode/Filter Reset button for three seconds, or until the Replace Filters Indicator clears itself.

4. Return filter case to the unit. Slide the bottom of the case back into the unit (c), then press the top in (d).

Know your Customized Filter!

Front	Back
