

Do not operate the unit until completing these steps first

Let's Begin!

Your customized filter will be packaged in plastic outside of the unit. Set the filter aside for later installation (step 6).

1. Remove the front panel by lifting from the bottom and pulling up.

2. Remove the filter case by grasping the handles on either side and pulling forward. Lay the filter case on a flat surface.

3. Pull the tabs on the front of the Pre-filter to remove it.

4. Remove the white Medium Filter from the black frame to discard the plastic wrapping. Return the filter to its frame.

5. Remove HEPA Filter and discard plastic wrapping.

6. Remove the empty Customized Filter frame from the case. Locate the Customized Filter set aside from earlier and remove it from its plastic wrapping. Insert the filter into its frame. Make sure the front of the filter is facing up. See Customized Filter chart to identify the front of your filter.

7. Pull out the Activated Carbon Filter and discard plastic wrapping.

Do not operate the unit until completing these steps first

8. Return the filters to the filter case in the following order from back to front: Activated Carbon Filter, Customized Filter, HEPA Filter, Medium Filter, Pre-filter.
(See diagram at right)

9. Return filter case to the unit. Slide the bottom of the case back into the unit (1), then press the top in (2).

Know your Customized Filter!

10. Reattach the front panel by latching the top hooks, then securing the bottom of the panel. A childproof feature pauses air purifier operation when the front panel is removed.

Front		Back
	Toxin Absorber Customized Filter: Front color: Purple Back color: Black	
	Pet Allergy Customized Filter: Front color: Purple & Orange Back color: Orange	
	Germ Defense Customized Filter: Front color: Purple & Yellow Back color: Yellow	
	Odor Remover Customized Filter: Front color: Black (thicker fabric like material) Back color: Black	

Connecting to your air purifier using your smart phone

1. Download the Rabbit Air app to your smart phone or tablet.
2. Use your existing customer login or create a new account.
3. Select "Setup new purifier" or "Find existing purifier" and follow the steps on the screen.
4. Now you can monitor your air quality and control your air purifier remotely. For more information, contact us at www.rabbitair.com/wireless.
