Quick Start Guide

2 Installing the Filters

1. Remove the front panel.
2. Remove the Filter Case by grasping the top and bottom of the handle.
3. Remove the Pre-Filter by pinching the two tabs on the top left and right side of the case.
4. Remove and unwrap all the accompanying filters.
5. Return all the unwrapped filters to the case.

Customized Filter
(packed inside the box labeled "Boost")
Please ensure filter label faces outward and aligns with the top of the Filter Case when inserting your Customized Filter

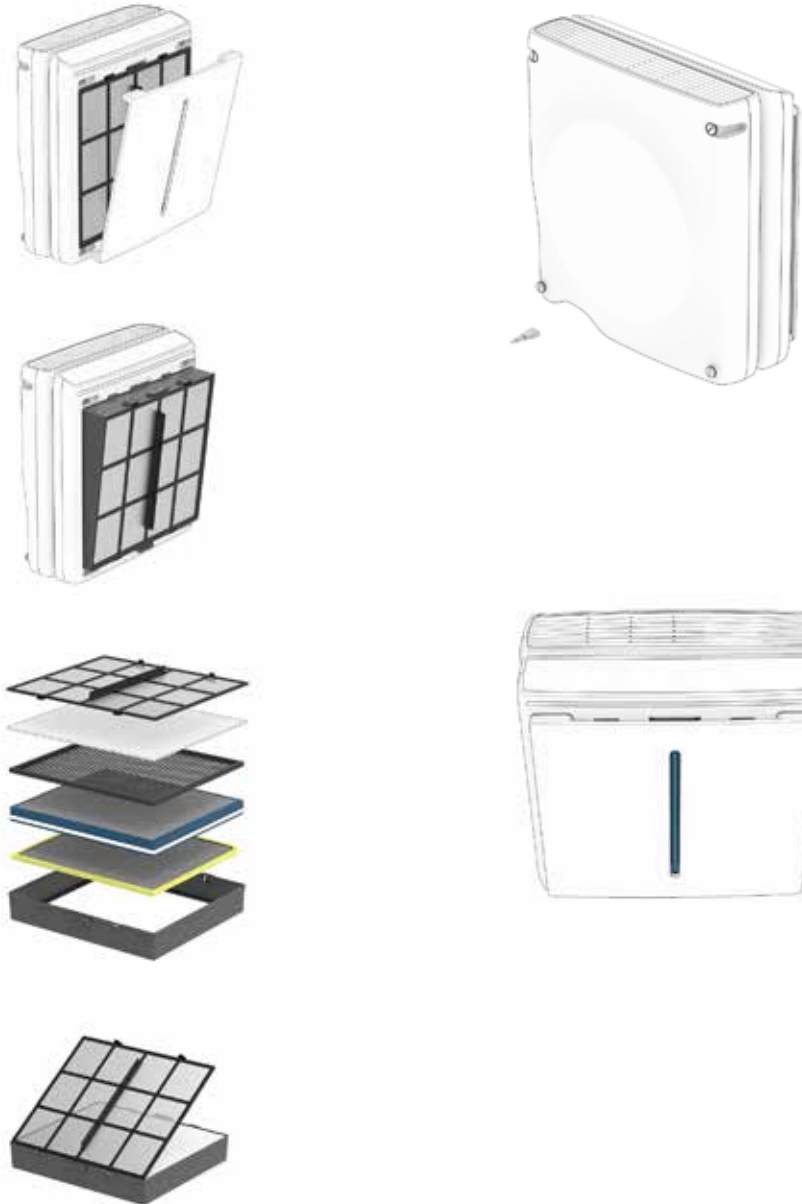

BioGS HEPA Filter

Activated Carbon Filter

Medium Filter
(make sure the edge of the Medium Filter lines up and sticks to the velcro on the Activated Carbon Filter)

Pre-Filter
(this filter goes in last; make sure all of the filters are packed snugly in place)

6. Insert the Filter Case with all the unwrapped filters back into the MinusA3.
7. Reattach the Front Panel.

3 Operating the MinusA3

1. Plug the power cord (included) into your MinusA3 and a power outlet.
2. Turn on your new Rabbit Air purifier by tapping the power button on the interface.

Your MinusA3 comes with two basic modes of operation.

Auto Mode: Relax knowing that your home is protected and you don't have to lift a finger. While in Auto Mode, the MinusA3 will detect changes in air quality using a highly sensitive odor and particle sensor, and the fan speed will adjust to continuously provide you with fresh, clean air.

Manual Mode: Take control of your indoor air quality. While in Manual Mode, your MinusA3 will stay at a consistent fan speed that you direct. Choose between Turbo, High, Medium, Low, and Silent to always have your air purifier running exactly as you would like it.

4 Connecting the MinusA3

Control your MinusA3 remotely by downloading and installing the Rabbit Air app on App Store (iOS) or Google Play Store (Android).

1. Download the Rabbit Air app on your smartphone or tablet.
2. Use your existing customer login or create a new account through the app.
3. Follow the instructions on the app to connect your MinusA3 to your account.

For more information, visit www.rabbitair.com/wireless

Finding the perfect spot for your MinusA3 is easy and we are here to help. The ideal location for your air purifier is an open area with good airflow that is not blocked by partitions or furniture. Depending on your design preference, it can be mounted on your wall or set on the floor.
