

Product Summary

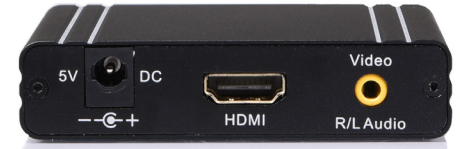

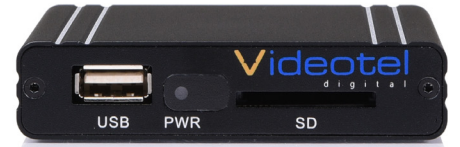

The VP70 LTE+ our commercial grade digital media player. The VP70 LTE+ is a solid state digital signage player that is ideal for auto looping video, audio and images and photos. Reads content directly from a USB or SD card. (USB included) The VP70 LTE+ has the capability to seamlessly auto loop a mix of file types while incorporating audio files as background sound which eliminates the need for an audio extractor. The VP70 LTE+ allows for various slide show transitions for different affects to keep your audience engaged. This digital signage media player is popular in all applications in any industry.
