

PANDORA

WRIST SIZE

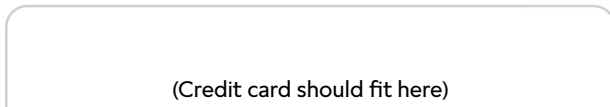

Guide

STEPS FOR SUCCESS

1. Printed on Letter (8.5 x 11 inch) paper
2. Printer settings should be set to 100% scale

Confirm size accuracy by comparing a standard credit card against the below diagram:

FIND YOUR WRIST SIZE

1. Cut out the measuring tape
2. With your palm open and facing up, wrap the measuring tape around your wrist, just above your wrist bone. Note down your wrist size measurement.
3. Using the wrist measurement you've just found, look at the size chart* to see which bracelet size corresponds to your wrist size. Consider sizing up if you plan to add charms to your bracelet, as this will add movement to your stack.

*Each bracelet type comes with a different set of recommendations. Find your bracelet style on [pandora.net](https://www.pandora.net) and view the sizing chart for that specific style.
