

OUR COMMITMENT TO YOU

East Coast Rescue Solutions is committed to training firefighters by providing industry leading simulators and top-tier training classes. With well over 100 years of professional experience from within the FDNY and other major metropolitan fire departments across the country, our team recognizes the need for high quality products and expert training. ECRS provides the most realistic and longest lasting Forcible Entry and Man vs Machine props on the market today. We also offer a wide variety of classes in areas such as forcible entry, truck company operation, FAST/RIT, firefighter survival and personal escape system training. East Coast Rescue Solutions was created by firefighters whose philosophy is that no firefighter should ever be left behind and we are bringing that philosophy to every course we teach and every product we sell.

EAST COAST RESCUE SOLUTIONS

is the industry leader in Forcible Entry and Man vs Machine simulators, our simulators are built to be the most durable and realistic props offered on the market today.

ECRS GEN3 FORCIBLE ENTRY DOOR SIMULATOR

The ECRS GEN3 Forcible Entry Door is the industry leader in Forcible Entry Simulators.

- Optional Drop Bar to be conventionally forced or by attacking the carriage bolts
- Three separate locks (top, middle, bottom) for inward/outward forces
- Over 65" of vertical door stop to force
- Door engineered to flex like real doors
- 3 receivers to accept our All-In One Props
- Prop can be disassembled or optional dolly system can be added

**OUR ENGINEERED
STEEL DOOR
FLEXES LIKE A REAL
COMMERCIAL DOOR**

BATTERING RAM AND DOOR DOLLY SYSTEM

The optional Battering Ram Plate is removable and allows for single and two person battering ram use. Our Door Dolly System allows a single person to easily relocate the Forcible Entry Door on your training grounds or firehouse. Our door dolly system can be removed when the door is in use.

ALL-IN ONE STAND ALONE PROPS

Our Stand Alone All-In One Prop gives you the versatility of having seven Forcible Entry teaching stations separate from your forcible entry door. All the props can be used at three different heights so your firefighters can hone their skills with real world applications.

Prop Includes:

- (2) Hinge Pulling/Cutting Stations
- (1) Rebar Cutting/Burning Station
 - holds six pieces of 1/2" rebar in window bar design
- (1) Thru-the-Lock prop includes a reusable milled lock cylinder and built in Mortise Lock for manipulation
- (1) Padlock Breaking Prop
- (1) Padlock Cutting Prop (Rebar) with bending jig

AUGER PROP FEATURES

The Auger Prop is a heavy duty simulator that will allow you to train your members in the use of a variety of hand and power tools to gain access and successfully free your trapped victim. This prop will help to ensure that your department is competent and successful when the call comes for a person trapped in a piece of machinery.

- Auger is 28' long and is 6" in diameter
- Steel access cover to the Auger
- Four 5/16 bolts secure the cover, to be cut or removed
- Auger can be manually removed or cut
- Two sacrificial pipe sections for cutting the Auger
 - Top sacrificial 20 gauge plate to access Auger
 - Top loading product bin
 - LOTO box mounted to the prop for proper power off procedure
 - Chain Drive and Motor
 - Prop can be filled with material for realistic scenarios

IMPALEMENT/ MACHINE PRESS FEATURES:

- The Impalement and Machine Press prop allows for a multi-use drill prop for entrapment training
- Lock Out Tag Out
- Impalement props train students to use multiple hand and power tools such as band saw, torch, sawzall to remove a trapped victim on a fence
- Press prop creates over 8,000 pounds of force for realistic training using airbags and cribbing for a trapped limb
- Promotes teamwork

**IS YOUR
DEPARTMENT
PREPARED FOR A
MAN VS MACHINE
INCIDENT?**

MEAT GRINDER PROP

This realistic and versatile prop will allow you to train the members of your department on limb entrapment within a Meat Grinder. This prop is available as shown and includes a stand with a power disconnect (LOTO), electric motor (sim) and chain drive. We also offer a tabletop version with just the Meat Grinder

Prop features:

- Auger is 10' long and 4" in diameter
- 1/8" Flat Stock used for cutting prop apart
- Auger can be manually removed
- Top loading product bin
- LOTO box mounted to the prop for proper power off procedure
- Removable chain drive and motor
- Prop can be filled with material for realistic scenarios
