

ECO - AIR STRUCTURE

This Eco-Air inflatable structure is one of the fastest ways to grab attention. The Tent is fully customizable, and can be printed by sublimation, silk screen or decal. The doors are fitted with two-way zippers for a reversible use of optional walls. The structure is built with a double-layer Oxford fabric. The bladder is made with strong and long lasting TPU inflatable material. Made with flame resistant fabric which meets CPAI-84 Sec. 6/ULCS109, and NFPA 701 fire standard specifications. The bottom leg is protected by a strong and thick tarpaulin layer. The Eco-Air Tent is quick to set-up and pack away, taking up minimal storage space.

FEATURE SPECS
