

SETTING UP YOUR IMPACT ECO-AIR STRUCTURE

- 1 Remove products from the carry bag. Unroll and unfold the legs of the structure so they lay flat.

- 2 Inflate Legs halfway.

- 3 Attach zipper from cover to the leg of the structure and zip all the way up. Stretch the fabric and attach the velcro to avoid wrinkles.

- 4 Locate valve on the bottom of the leg and insert end of pump tube into valve and inflate.

- 5 Completely inflate tent so it can stand on its own. Enjoy your Impact Canopy Eco-Air Structure!
