# OPEN SACRED SPACE

Before performing any ritual, it's vital to open sacred space. And when you're finished, you must close the circle and protect your sacred space and the magic you made. To open sacred space, call in the directions and elements for guidance and support:

East // Air  
South // Fire  
West // Water  
North // Earth  
Center // Spirit

## IGNITE THE FIRE

Begin by lighting the Ritual Candle, symbolizing the fire of Beltane and the energy of transformation and growth.

Hold the Crystal Bracelet in your hands, infusing it with your intentions for abundance, fertility, and joy. Visualize these blessings manifesting in your life.

Use the Ceremonial Twine to create a small, sacred circle or knot, representing the unity of the elements and the interconnectedness of all life.

Light the Dried Sage and Amethyst Bundle, allowing its smoke to purify and bless the space. As you do so, speak your intentions aloud, calling in the energies of Beltane for renewal and vitality.

Anoint yourself with the Florida Water Balm, focusing on areas of your body where you seek healing, vitality, and divine connection.

Hold the Amethyst to your heart and meditate on the blessings of Beltane, feeling its energy coursing through you and filling you with renewed vitality and joy.

Release the circle or knot, knowing that you are now aligned with the abundant energies of the season.
