

PROTECTION

Ritual Guide

SAGE

Protection from the evil eye

The evil eye is a belief found in many cultures around the world, typically associated with a malevolent glare that is believed to bring about misfortune, injury, or bad luck to the person being targeted. The concept of the evil eye is ancient and has roots in various civilizations including ancient Greece, Rome, Mexico, and the Middle East

To protect against the evil eye, various talismans and symbols are used across different cultures. One of the most common protective symbols is the blue eye, often referred to as the "blue eye bead" or the "nazar." This symbol is typically made of glass or ceramic and is believed to ward off the effects of the evil eye by deflecting its gaze.

The color blue is often associated with protection and warding off evil in many cultures, which is why the evil eye talisman is commonly depicted in shades of blue. The belief is that the blue color is particularly effective at neutralizing negative energy and keeping the wearer safe from harm.

Protection Ritual Box

In this box you'll find:

Protection Invocation + Stand

Read this invocation daily to keep yourself protected from anything that doesn't have your best and highest good in mind. Stand it up on your desk, in your bathroom, or desk.

Selenite Dagger

Selenite is the master crystal! Use this power in the shape of a dagger to cut the cords of anything attached to you and keep negative energy away.

Crow Feather

Crows are the bridge between worlds. This magical feather will help you stay rooted in your magic.

Offering Bowl

Make an offering for protection or keep this bowl on your altar! When you offer something up to the universe, you will be granted protection in all forms.

Smoky Quartz

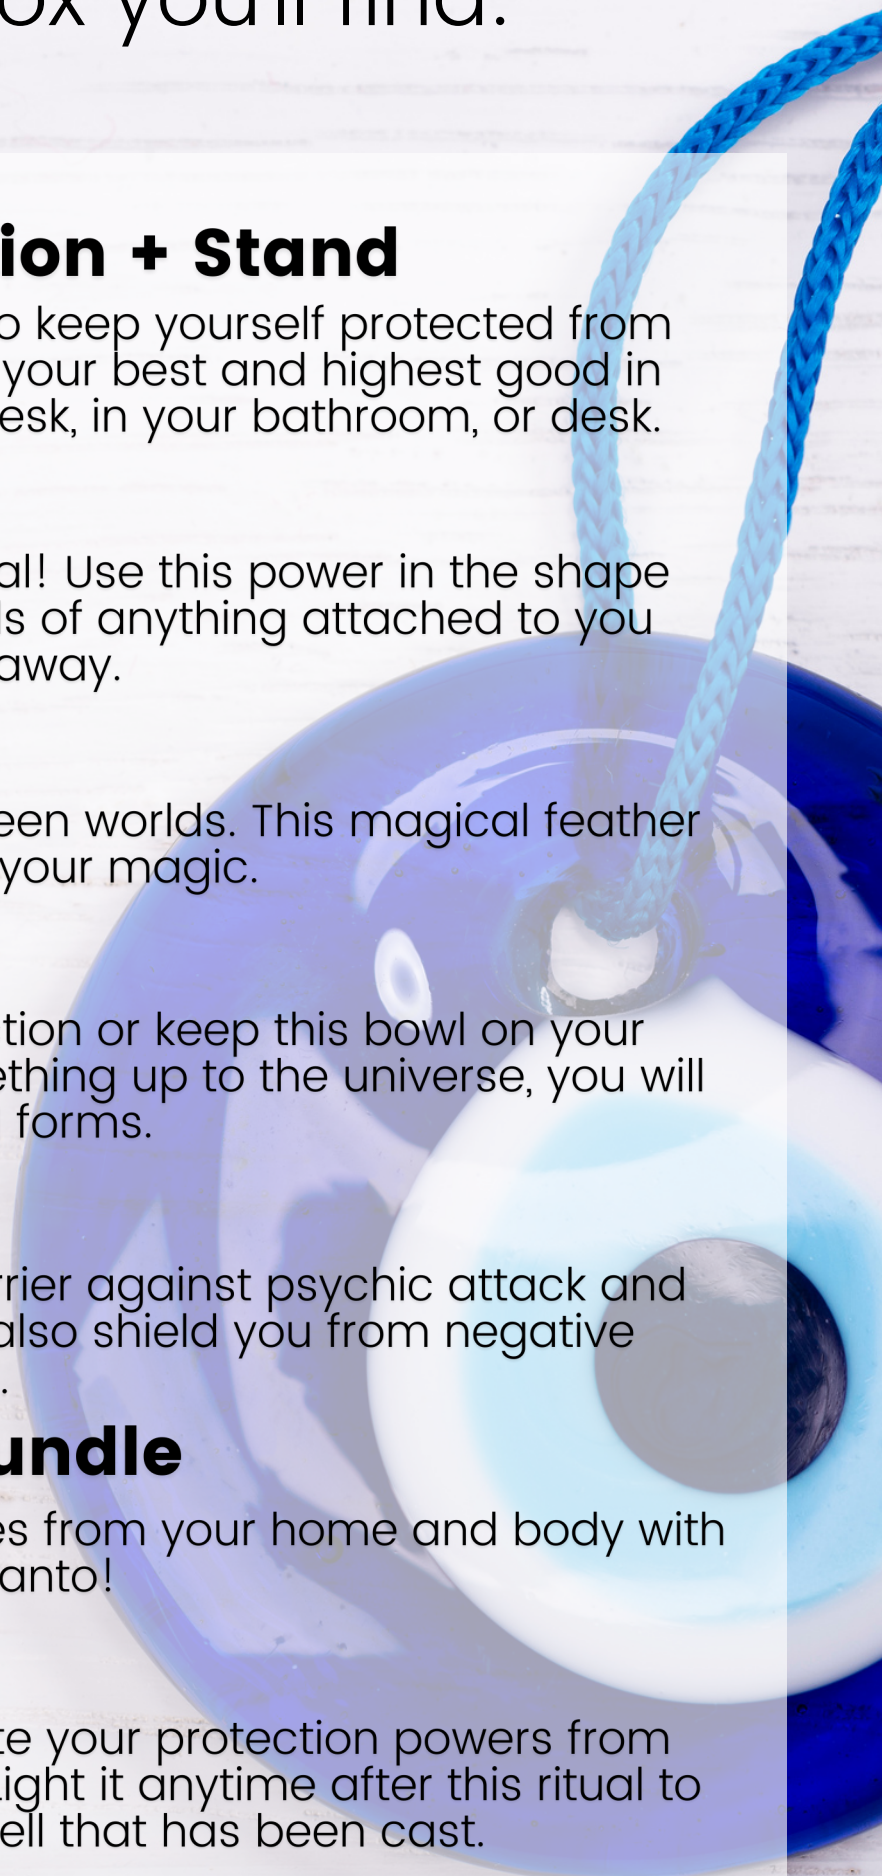

Smoky Quartz creates a barrier against psychic attack and unwanted influences. It will also shield you from negative entities or intrusive energies.

Palo Santo Herb Bundle

Dispel any negative energies from your home and body with the sacred smoke of palo santo!

Evil Eye Candle

This Evil Eye candle will ignite your protection powers from within with candle magic! Light it anytime after this ritual to invoke the energy of the spell that has been cast.

OPEN SACRED SPACE

Before performing any ritual, it's vital to open sacred space. And when you're finished, you must close the circle and protect your sacred space and the magic you made. To open sacred space, call in the directions and elements for guidance and support:

East // Air
South // Fire
West // Water
North // Earth
Center // Spirit

BANISH BAD VIBES

Take the invocation card in your hands, take 3 deep breaths, and read it aloud.

In the presence of cosmic energies, I gather my shield. Guardians of light and shadow, I invoke your watchful gaze. Surround me with your ward against the evil eye. Elements, pillars of strength: Earth, Air, Fire, Water, Spirit, fortify me. I banish malevolence, inviting harmony and divine protection. With unwavering resolve, I stand, knowing the evil eye's power is repelled. I am protected.

Set an intention for this ritual that is specific to your life and the protection you desire to feel and create. Is there someone or something that has made you feel unsafe? Are you dealing with a negative energy or force in your life? Identify what specifically you would like protection from and declare it to the universe.

Light the palo santo bundle and waft the smoke around your body and entire home with the crow feather. Cleanse all the tools you received in your box as well.

Crows are believed to be messengers between the earthly realm and the spirit realm. They are symbols of magic, mystery, intelligence, and transformation. Use this energy as you intent to transform your space and the shield of protection around you.

CANDLE MAGIC

Light the candle and gaze for a moment at the flame as you connect to the shield of protection that you've created. This Evil Eye candle will ignite your protection powers from the inside out.

Place your hands near the candle as you absorb the energy of this candle magic through your palms. You have intense energy centers at your palms that can transmit and receive energy.

Open up these powerful energy centers and invite the protection magic of the candle into your body and energy field.

CRYSTAL MAGIC

With your intention set and your crystals cleared. Place your intention into the Smoky Quartz. This powerful crystal will be your ally to co-create a force field of protection in your life.

Once programmed, place this crystal somewhere you'll see it often, or keep it in your purse, car, or pocket.

Now take the Selenite dagger and connect to any negative energy that you know is around you that you no longer want to allow or experience.

Identifying this negative energy that you want to get rid of is important to keep it away. Once you become aware of it, it loses its power.

Take the Selenite dagger above your head and begin cutting any cords of attachment all around you. Start at the top of your head and move down all the way to your feet. Be sure to especially cut anything attached to the bottoms of your feet.

Feel the energy leave your body as you reclaim your power! You have the ability to decide what has access to you and what doesn't.

OFFERING OF PROTECTION

In the offering bowl, you can place anything in your life that feels like protection. You can also use this to hold your Smoky Quartz crystal if that's where you would like for it to live.

Leave the bowl on your altar, and when you come across something that feels like protection - a flower, a handful of soil, a pretty rock you found on a walk, etc - you can place it in this bowl.

This offering bowl can be your living offering of protection so that you are constantly in communication with the universe and your intention.

Express your gratitude for this ritual and for being able to reclaim your power. Set the intention to do this regularly and you'll feel the lightness of energy envelop you.

CLOSE SACRED SPACE

Center // Spirit
North // Earth
West // Water
South // Fire
East // Air
