

ROQ holds the patent for the ROQPRESS foil station. This module allows application of **foil much faster** than traditional procedures and **without need for a dedicated operator**.

## roqpress foil

- Compatible with ROQPRINT YOU, ECO, OVAL PRO and OVAL EVOLUTION
- Fully automatic foil application
- No human intervention in the process
- Maximum production of 450 pieces per hour

| ROQPRESS FOIL                             | 3550                  |
|---|-----------------------|
| drawing width (mm/inch)                   | 350 x 500 / 17" x 24" |
| compressed air consumption (l/min. 7 bar) | 95                    |
| voltage supply (VAC)                      | 3 x 230 / 3 x 400     |
| maximum temperature (°C)                  | 200                   |
| power supply (kVA)                        | 5                     |
| total length (mm/feet)                    | 1450 / 4.75'          |
| total height (mm/feet)                    | 1400 / 4.6'           |
| total width (mm/feet)                     | 760 / 2.5'            |

## roqpress iron

ROQPRESS IRON IMPROVES THE QUALITY OF YOUR PRINT

- Compatible with any ROQ automatic screen printing machine
- Powered using the machine power connections
- Temperature control
- Max temperature 200°C
- Speed/pressure regulated by the print head
- Press with 400mm and e 600mm width

| ROQPRESS IRON     | M                 | XL+                |
|-------------------|-------------------|--------------------|
| iron (mm/pol)     | 400 / 16"         | 600 / 24"          |
| power supply (Kw) | 4                 | 5                  |
| course (mm/pol)   | 550 / 21"         | 850 / 33"          |
| screen (mm/pol)   | 900x563 / 36"x22" | 1200x763 / 47"x30" |
| temperature (°C)  | 200               |                    |
