

Cocoon

create your dream world

The cocoon bed can accommodate up to two adults and one child. It is customizable, and has a large number of accessories available

A new way of sleeping in nature. Meet the cocoon bed:

- . A suspended robust spherical structure;
- . Made in T6 aerospace aluminium;
- . Covered with a high-quality M2 fire-proof PVC membrane;
- . Contains a wooden floor for a luxurious 2,5 m circular bed.

The cocoon bed is easy to install. Various set-ups can be used:

- . Ground installation: we provide 4 cocoon feet;
- . Post installation: you can hang it on 4 wooden posts (20 cm diameter posts) ;
- . Tree installation: you can hang it on 4 sturdy trees .

The cocoon bed is an ecological, off-grid and nomadic solution:

- . Reduced carbon footprint: the light pre-fabricated structure is flat-packed and easy to transport;
- . Easy maintenance and recycling: individual components can be repaired or replaced, and all components are recyclable;
- . The cocoon tree has no impact on the local flora or fauna.

The Cocoon Tech-Specs:

- . Diameter: 3,0 m
- . Floor-area: 7 m²
- . Height: 2,0 m

The Cocoon Shipping Information:
