Exclusive Post Breast Surgery Options

# A beautiful option

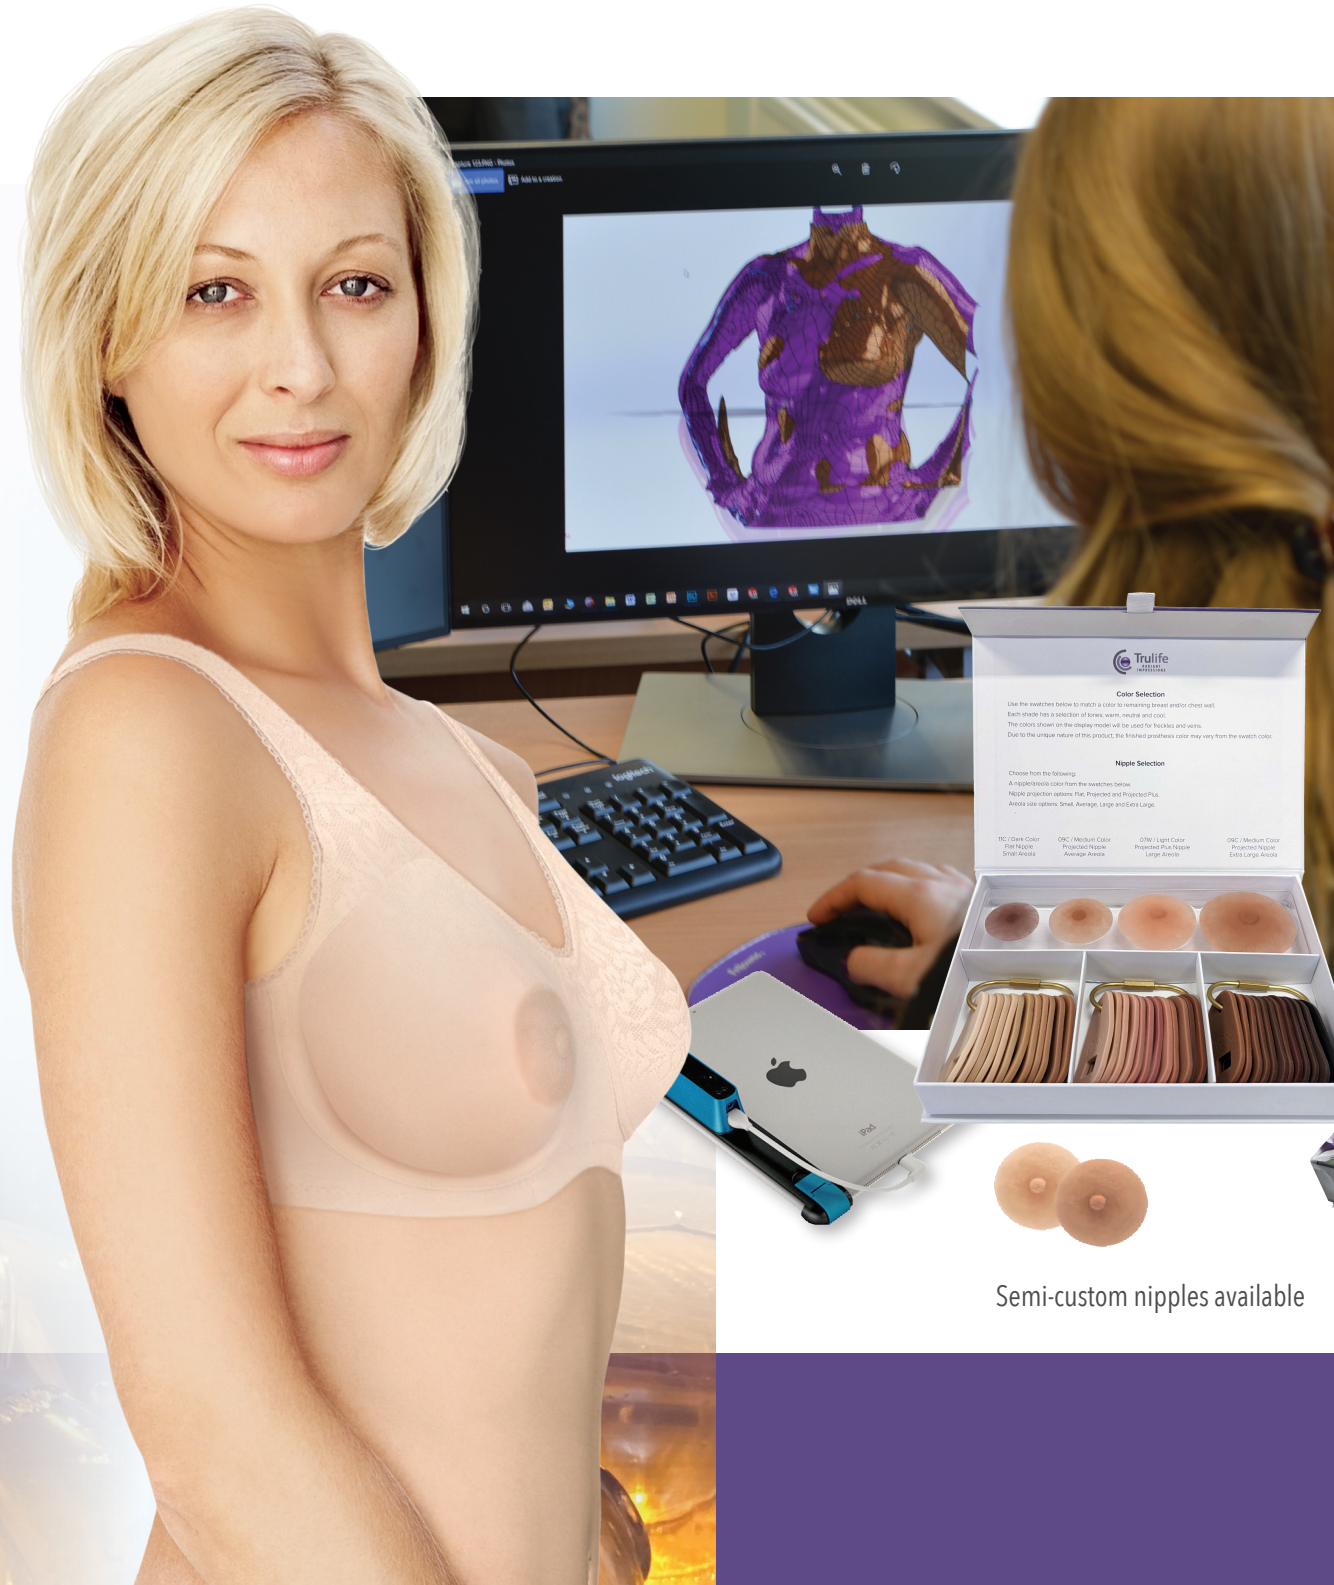

after mastectomy, lumpectomy or reconstruction.

Experience the trusted leader in custom breast prostheses design. Contact your Certified Fitter to learn if you are a candidate for the Radiant Impressions based upon your medical health, prosthesis expectations and insurance coverage.

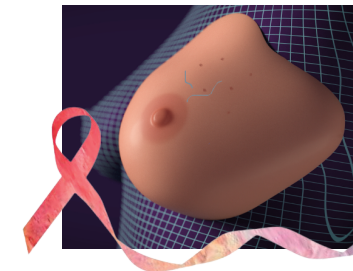

## A Beautiful Option

Radiant Impressions, Trulife's custom breast prosthesis, is a non-surgical breast reconstruction option for women who have had a mastectomy, lumpectomy, or reconstruction surgery. A realistic prosthesis that simulates breast tissue and provides symmetry to your bra fit. Made of 100% natural silicone, the custom breast prosthesis is lightweight and can be worn directly against the chest wall in a non pocketed bra. Radiant Impressions is soft and comfortable to wear over implants and over breast tissue that has changed in size due to radiation.

## 3D Scanning

Trulife uses Apple iPad with Structure Sensor scanning technology to capture a precise and rapid 3D scan that quickly creates a detailed image of your surgery site. Your custom prosthesis is carefully prepared by an experienced design engineer in Ireland where all your specifications are included. With over 30 skin tone options available, we can match your desired skin tone and add freckles, veins, realistic nipple and tattoos to make your prosthesis unique to you.
