PROFIL100EC
High security keypad

CDVI Group Products

Range: Digicode®

PROFIL100EC

The PROFIL100EC is a narrow style, high quality, stainless steel keypad with soft blue backlighting. It is ideal for narrow door styles where ruggedness and aesthetics are important.

Its design and its high resistance to vandalism makes it suitable to secure residential, commercial and industrial sites. The compatibility of the DGA with all CDVI locking devices gives you the flexibility to optimize your security.

The security level of the PROFIL100EC is increased due to the electronics being housed away from the keypad .
Easy to programme, with a host of features, this keypad incorporates a specially designed membrane to protect the mechanical and electronic functions of the keys to maintain it's IP rating and ensure continued operation even in the harshest environments.

Commercial   Industrial   Public Buildings   Multi-tenant occupancy   Residential

Remote controller (included)

PROFIL100EC
