AAProx - Datasheet

Simple to fit

Multi-format proximity reader for use with Paxton Net2 system.

Suitable for use in wet environments.

Readers should not be mounted on metal surfaces, and there should be a minimum of 500mm distance between any two AAProx readers.

For Technical support call 01604 496689
**Or email technical@advanced-access.co.uk**

Reader covers
Additional covers are available in black, white, grey, blue and silver.

Cable extensions
Readers can be extended using Belden 9540 10-core overall screened cable. The maximum cable length between reader and control unit is 100m.

CE0168

Advanced Access Ltd hereby declares that this product is in conformity with all the essential requirements of the Directive 1999/5/EC. This equipment is intended for use in all the EU and EFTA countries and all other countries worldwide
