PAC® Token

The PAC Token is compatible with the entire OneProx, PAC and Easikey reader range, allowing easy incorporation into any existing PAC-based system, where photo ID is not required.

The PAC Token provides new levels of convenience, flexibility, usability and user satisfaction in any access control environment and delivers a read range of up to 120mm, in a compact ID device that fits on a keyring.

Key Features:

- PAC tokens offer fast and convenient access
- Small and convenient
- Versatile, easily attached to a keyring, badge clip, chain or carried in pocket or handbag
- Universal compatibility with all Oneprox, PAC and EasiKey series readers
- Proven and reliable technology
- High security, offering over 68 billion unique code combinations
- Rugged and durable 'washing machine tough' design
- Double sealed and ultra-sonic welded ABS construction
- 153 kHz technology
- Long life, passive no battery design
- Lifetime guarantee against electronic failure

The passive proximity technology in the PAC token requires no batteries or physical contact with the reader; this helps assure that the tokens are virtually wear-free and will provide years of service with no maintenance backed by a lifetime guarantee against electronic failure. Robust, world-class construction combined with advanced technology, incorporating a pre-programmed unique identification number without site codes, makes programming easy and copying almost impossible.

Together with the access control system, the PAC Token enables a user's movements to be monitored and the building protected. The token need only be held near a PAC door reader for the code to be read and access granted or denied within 0.5 of a second. In the event that the token is lost or stolen, it can easily be replaced and the lost token access privileges, simply and instantly revoked.
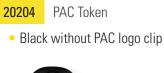

Features & Specification

Description	PAC Token
ID Technology	PAC (153KHz)
Dimensions	H: 62mm L: 28mm D: 5.5mm
Weight	8.96g nominal
Operating Temperature	-35° to + 80° C
Token Outer Construction	Double sealed ultrasonic welded ABS plastic
Finish Front	Black matt plastic
Finish Rear	Black matt plastic
