ABOUT THE COMPANY

Founded by the Gajiani family who started Alstyle Apparel & Activewear in Santa Ana, California USA. Tee Styled started its operation with only few sewing machines expanded to vertical manufacturing. We knit, dye, finish, automatic cut and sew all in our own factories that extend from Los Angeles, California USA to Tijuana & Ensenada, Mexico. We provide highest quality with our state-of-the-art machinery from Germany, Italy, Switzerland, Turkey and USA. Our skilled technicians & managers have many years of experience and can assist in all your apparel needs. We are one of the largest suppliers of blank t-shirts still existing in USA. Tee Styled offers the perfect blanks for rebranding and everyday wear.

- Latest fabric finishing machines with camera system to provide TRUE pre-shrunk blanks
- Automatic cutting machine from Italy to provide consistent fit in our blanks
- We have total 4 sewing factories in Tijuana and Ensenada, Mexico

MANUFACTURING

Tee Styled has invested over 2 million dollars in 2017 to upgrade our whole vertical manufacturing facility. Our dye house uses 50-60% less water, energy and we use blue sign approved dyes and chemical to process our fabrics. Our fabric mill uses Vanguard Pailung high speed knitting machines with latest technology from Matrix Controls to control fabric quality and deliver quicker. We are the 1st company in USA to have fully automatic low liquor ratio dye machines from Turkey. We have insulated all steam pipes in our mill to save energy and be sustainable. Our newest addition is our automatic cutting system from Bierrebi, Italy. We use Datacolor technology & AATCC test methods to control crocking, dimensional stability, color fastness, and fabric weight. We use finishing machines from Fab-Con, USA with camera systems & stitch counters to provide TRUE Pre-Shrunk blanks. We run an eco-friendly operation and have been providing jobs in USA since 1996.
