CleanWave

**NEW INNOVATION
FOR PRESSURE WASHERS**

Unleash the power, without the cord.

CleanWave rides the wave of innovation to propel us towards a cleaner, greener future with zero emissions. Kärcher, the global leader in cleaning equipment, introduces a battery-powered professional cold water pressure washer to usher in a new era of efficiency and flexibility. The innovative CleanWave provides a cordless solution to tackle heavy-duty cleaning with an unrivaled runtime of up to 4 hours.

The Deluxe model features auto start/stop, pump protection and ECO mode operation. CleanWave delivers robust cleaning performance without compromise.

1 Battery power

- CleanWave Deluxe's lithium-ion battery requires zero maintenance, providing 3,000 charge cycles. Lithium-ion batteries have excellent charge efficiency and low self-discharge.
- CleanWave Classic's AGM battery is non-gassing, non-spillable, and maintenance-free. Absorbent fiberglass mat material allows for efficient energy conversion.
- Charge time from flat to full in 8 hours (AGM) and 10 hours (L-ion)
- Saves approximately \$5,000 in fuel costs annually when compared to gas-powered pressure washer usage against annual cost of electricity* to fully charge the batteries.

2 Flexible controls

- ECO mode extends battery life up to 240 minutes
- Turn-key start

3 Smart features

- Forklift compatible frame
- Direct drive triplex crankshaft pump
- EASY!Force gun with cruise control like technology - uses its own recoil force to hold the trigger down - so, no more sore hands after hours of use
