

# WHERE DOES YOUR SUBSCRIPTION GO?

**SafeTrx Active is more than a watch.**

**It is your direct connection to the Danish National Maritime Operations Centre run by the Forsvaret**

Weighing in at less than 40 grams, this wearable safety device can provide hours of real time tracking while sending location data direct to the emergency rescue services. This is a truly connected device with a built-in SIM that has connectivity to the Telenor LTE-M mobile network. The subscription fee that you pay gives you real-time access to the Telenor mobile networks without any data cap or time restrictions and cloud access to the SafeTrx Maritime Platform used by Forsvaret JRCC for answering alerts

A handwritten signature in black ink, reading 'John Murphy'.
