

2S Battery Harness 6952

Caution: Battery and ESC connections must follow standard convention as above. **All batteries must be at full charge before connection.**

DO NOT CHARGE WHILE CONNECTED.

6942 -Battery Harness, 2P, for two packs in parallel.

Use to increase current and duration.

6952 - Battery Harness, 2S, for two packs in series.

Use to increase the total voltage.

6953 - Battery Harness, 3S, for three packs in series.

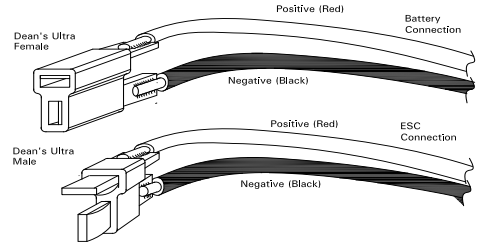

Use to increase the total voltage.

Caution: All batteries **MUST** be identical, same brand, "C", rating and mAh rating.
