

Designed For

Plates for powerlifting competition and training

Slim Profile

Means more plates can be loaded on bars; 700+ kilo

Certified

Plates for powerlifting competition and training

Easy Weight Identification

Unique Olympic colour palette allows for quick identification

Champion Approved

Train As You Compete With Quality and Performance Assured

Elegantly designed cast iron plates with a thin profile allow more weight to be loaded onto the bar for seriously heavy lifts. Precisely calibrated and certified for competition, the plates are guaranteed to be within the tolerances mandated by the IPF Technical Rule Book. Plate weights are easily identified by our iconic weight colours and clear raised white lettering. A lipped circumference ensures a secure grip for safe plate handling, loading and unloading. Plates are sold individually.

RANGE (KG): 10 / 15 / 20 / 25

Warranty

10 years*

* To be dropped on 30 mm-thick rubber flooring (training platform recommended by Eleiko). Indoor use only. Normal wear and tear does not fall under warranty.
