

Certified

Bar is certified by the IWF for training

Grip Markings

Bar features markings for weightlifting

Perfected Rotation

Engineered for smooth controlled rotation under load

Knurling

Balanced grip to ensure a secure hold on the bar

Designed For

Training for competitive weightlifting

Training Perfection

Superb Performance Without Tight Competition Calibration

Certified by the International Weightlifting Federation (IWF) this bar is designed specifically for training for competitive Olympic weightlifting and used by professional lifters in training halls and facilities around the world. The training bar delivers the feel and performance of our competition bar but with less sharp knurling making the bar appropriate for a higher volume of lifting. Crafted in Sweden, the bar's high performance is the result of precision needle bearings that disperse the load evenly through the shaft to deliver uniform rotation at all loads. Proprietary steel and chrome coating provides the optimal balance between strength and elasticity to deliver the ultimate lifting experience.

Article code

3060763

Length

2010 mm / 79.13 in.

Weight

15 kg / 33.07 lbs

Warranty

12 years*
