

VERTICAL CHEST PRESS

PW7377

DESCRIPTION

- Converging motion optimizes pectoral contraction.
- Independent lever arms facilitate muscle isolation.
- Adjustable backrest for greater range of motion.
- Fabric belt on the backrest further facilitates adjustments.
- Shock adjustable seat provides smoother height customization.
- Two handle-grip options (pronated and neutral).
- Spring assisted pre-stretch pedal allows users to get into position easily.
- Built in band pegs and weight horns.
- Rubber footplate provides additional stability.
