RICE Happy Earth

In March 2022, we invested in a piece of farmland we forested. We call this initiative RICE Happy Earth. This project is an integral part of our overall commitment to environmental responsibility known as RICE Responsibility.

We have dedicated 36.2 hectares of land to reforestation, to offset CO2 emissions. Through meticulous selection, we have planted 65,000 trees, specifically choosing long-living and resilient species known for their exceptional ability to absorb CO2 generated by our activities. We will plant 6,000 square meters of wildflowers every third year to support biodiversity.

We have always believed in the motto "People care - we care" and have always aid that no one can help everyone, but everyone can help someone. The RICE Happy Earth project is our way of proudly contributing to a brighter and greener future.
