The use of the environment is 0 degrees ~45 degrees, and it is forbidden to throw it into the fire so as not to cause an explosion. 4. Please wipe off the water with a soft cloth and then the watch can be

charging contact point and charging incident may occur. 5. Do not touch the chemical substances such as gasoline, clean solvent, propanol, alcohol or insect repellent.

used for the charging operation, otherwise it will cause corrosion of

6. Please do not use this product in high pressure and high magnetic

7. If you have sensitive skin or tighten the wristband, you may feel 8. Please dry the sweat drips on the wrist in time. The strap has long

contact with soap, sweat, allergies or pollution ingredients, which may cause skin allergy itching. 9. If it is often used, it is recommended to clean the wristband every

week. Wipe with wet cloth and remove oil or dust with mild soap. It is not appropriate to wear a hot bath with a wristband. After swimming, please wipe the wristband in time so as to keep dry.

Q: Can't find the smart watch when trying to select device on the GloryFit App setting.

A: 1. Make sure the smart watch is on and close to 2. Make sure the smart watch - "TranyaGo" is NOT on the Bluetooth list of your phones; 3. Make sure the smart watch is not connected to any other phones. Search again and you would find "TranyaGo" in

your GloryFit App.

Q: Is the watch waterproof?

A: It supports IP68 waterproof and dust-proof level (IP68 standard is 35 degrees below water, 1 meter below 30 minutes). Usually, you can wash your hands, take a cold shower, or wash car with the smart watch. Such as sauna, hot spring, hot bath, etc.

Q: Why is the data of heart rate monitoring inaccurate?

> A: To calculate your heart rate, Heart Rate Monitoring utilizes the LED lights to determine how much green and red light is being detected from the skin of your wrist. If you don't keep the watch close to your skin, there will be ambient light reaching into the sensor, which will affect measurement

Q: Why can't I receive the message notification?

A: Android Phone: Step 1: Be sure the watch is connected to the phone;

Step 2: Be sure the "GloryFit" App is running in your cell phones, and keep it running in the background; Step 3: Be sure the watch is not on "Do Not Disturb" mode; Step 4: Be sure the related reminders in the GloryFit App are on;

Note: Currently, the GloryFit App may be killed in the background for most Android Phones in every 10-15 minutes. Regarding to a specific model of your phone, for example, pixel 5, you can google "how to keep APPs running in the background

Step 1: Restart the phone and reconnect the smart watch;

Step 2: There will be a popping up "Bluetooth pairing request" and clicking "Pair"; Step 3: Be sure the "GloryFit" App is running in your cell phones, and keep it running in the background;

Step 4: Be sure the watch is not on "Do Not Disturb" mode; Step 5: Be sure the related reminders in the GloryFit App are on.
