INSTRUCTION MANUAL

MOUNTING OPTIONS

Rev D Apr19

The installation of HEATSTRIP® Classic is simple and easy with the standard mounting brackets supplied. For other more challenging locations there are range of mounting options available - refer to below diagrams.

The HEATSTRIP® Classic can be mounted directly to the ceiling, angled downwards on a wall, fitted flush with the ceiling; suspended on chains or poles; attached to beams or poles.

Standard Bracket Ceiling

Flush Mount Enclosure

Extension Mounting Bracket

Chain / Wire Mounting

DESCRIPTION

The Recess Mount Enclosure is an ideal way to neatly install the HEATSTRIP® into a ceiling. They are available for all HEATSTRIP® Classic models, and are supplied as a one-piece unit for mounting of heaters. Recess mounting can be used with plaster or wood lined ceiling materials.

An ideal mounting height is 90" - 105" (2.5m-2.7m), with a maximum ceiling height of 117" (3.0m) in an outdoor enclosed environment. Maximum mounting heights should be strictly followed, otherwise the performance of the units may be reduced.

The fascia of the enclosure is manufactured from 316 Stainless Steel and the rear casing is black zinc coated steel.

SUITABLE FOR MODELS	PART No	HOLE CUTOUT DIMENSIONS (inches)	OVERALL DIMENSIONS (inches)	WEIGHT (lbs)
1500 Watt	THHAC-009	38.5" x 9" (980 x 230mm)	40.3" x 11" x 4.9" 1030 x 280 x 125	12 (5.5kg)
2400 Watt	THHAC-011	55.5" x 9" (1420 x 230mm)	57.5" x 11" x 4.9" (1470 x 280 x 125mm)	18 (8kg)
3200 Watt	THHAC-012	72.5" x 9" (1830 x 230mm)	73.6" x 11" x 4.9" (1880 x 280 x 125mm)	22 (10kg)

INSTALLATION INSTRUCTIONS

MODEL	"D" DISTANCE FROM END TO BRACKET (inches)
THH1500A	6" (150mm)
THH2400A	14.5" (370mm)
THH3200A	16.5" (425mm)

Ensure all minimum clearance requirements are met and the materials used are compliant to your local building codes.

Before installing the Recess Kit, ensure the site to be fixed is fully prepared with the hole cut the correct size and the mounting points securely in place.

STEP 1: Attach the brackets to the rear of the heater. The dimensions for the spacing of the brackets is listed in the table.

STEP 2: Screw the Recess Kit into the battens. **NOTE:** screws are not included.

STEP 3: If there is no roof access, connect the heater to the power source, ensure the power is OFF.

STEP 4: Lift the heater into the Recess Kit ensuring the brackets are to the side of the mounts

STEP 5: Push the heater to the left ensuring the brackets engage in the mounts. It will then drop in. Shake the heater to ensure that it is securely mounted.

SAFETY

In operation, this heater is VERY HOT— do not touch any part of the heater while it is turned on. Do not touch any part until 30 minutes after it is turned off.

This appliance is not intended for use by persons (including children) with reduced physical, sensory or intellectual capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure they do not play with the appliance.

Do not allow any cables, furnishings, flammable materials or other items come in contact with any surface of the Flush Mount Enclosure.

If installed in wet areas, the heater switches or controls must be located so that they cannot be touched by persons in the bath or shower.

The Flush Mount Enclosure needs to be installed as per the installation instructions paying special attention to the minimum clearances. The heater needs to be mounted on a rigid bracket or fixing.

See the heater Operations, Installation and Maintenance Manual for the heater specific guidelines.

MAINTENANCE

The Recess Mount Enclosure is made from durable materials, however regular care and maintenance of your product will help prolong its life.

It is recommended that you wipe down your Recess Mount Enclosure and with a soft cloth gently wipe the surfaces with a mild detergent to remove the built up contaminants from the environment. Then with a clean cloth ensure all detergent is removed.

All chemicals in the atmosphere including cigarette smoke, pollution etc. will tarnish the surface of the Recess Mount Enclosure. In this case, additional cleaning and maintenance may be required. The cleaning process at least every three months will reduce the amount of build up and keep it looking as best it can. If the Recess Mount Enclosure is in a corrosive environment eg. salt spray, we recommend that you clean the unit every week.

Before cleanings or inspection activity, the heater must be switched off and cooled down completely. Do not use any abrasive materials or products to clean the Recess Mount Enclosure, this includes solvents, citrus based cleaners or other harsh cleaning products.

When handling the Recess Mount Enclosure, ensure that your hands are clean or that you use clean gloves as grease or dirt can mark the surface of the heater.

Do not use high pressure water to clean Recess Mount Enclosure. It is not recommended to hose down the unit and heater as water may get into the roof cavity.

Warranty Terms & Conditions

The below Warranty Terms and Conditions apply for **North American Customers**.

Heatstrip USA warrants to the original owner that HEATSTRIP® Classic products will be free from defects in materials and workmanship for a period of 12 months from the date of purchase in accordance with the following warranty terms and conditions.

Provision of this warranty is subject to:

- The HEATSTRIP® product must be installed in accordance with the Installation Instructions and relevant electrical standards and codes.
- The HEATSTRIP® product must be maintained and cleaned according to instructions detailed in the Installation Manual.
- There is no warranty expressed or implied with regard to capacity requirements. The selection of the unit or units depends entirely upon the system design and capacities as determined by the purchaser.
- The customer has not repaired, opened or altered the product in any unauthorised manner.
- This warranty excludes damage to the product or components arising from circumstances outside the control of Heatstrip USA, including, but not limited to, where the product is not used for intended purpose; where the product has been rectified in any way; incorrect installation; incorrect power supply; damaged caused during delivery; misapplication, misuse, abuse, vandalism, lack of maintenance or accident.
- Heatstrip USA's obligations under this warranty are limited to repair or replacement at Heatstrip USA's factory of any components of the product which Heatstrip USA identifies to its satisfaction to be defective.
- Transportation charges involved in return of the product to the Heatstrip USA factory (or any other location authorised in writing by Heatstrip USA) is the sole responsibility of the customer.
- All products are inspected and tested before despatch and are at the risk of the purchaser after the shipment from the Heatstrip USA factory, if not delivered by Heatstrip USA to destination.
- No products or components will be supplied in advance of an examination of the faulty product or components by Heatstrip USA or an authorized representative of Heatstrip USA.
- Heatstrip USA does not participate in any site related costs or labour expenses incidental to replacement of parts, repairing, removing, installing, servicing, transportation or handling of parts to complete products, and assumes no liability on parts repaired or replaced without written authorisation. Heatstrip USA shall not be liable for any default or delay in performance of its warranty obligations caused by any circumstances beyond its control, including, but not limited to, judicial or government restrictions, strikes, fires, floods, abnormal weather conditions, delayed supply of components.

Should products be determined as damaged on arrival, immediately notify the transport company of the condition and have them noted on the freight documents. If damage is discovered after unpacking, demand immediate inspection by the transportation company and insist that a record of the damage is made on the freight documentation.

The customer warrants using the product in accordance with:

- Any instructions provided to it by Heatstrip USA from time to time.
- All government and local regulations, including but not limited to all relevant electrical, environmental laws and regulations governing the installation, storage, use, handling and maintenance of the goods.
- All necessary and appropriate precautions and safety measures relating to the installation, storage, use, handling and maintenance of goods.

All warranty requests for repairs or replacements must be accompanied by a complete "Warranty Claim Form" available from Heatstrip USA, together with proof of purchase (and where possible, photos of the installation) and the heater returned to the place of purchase.

In the event of a warranty claim, the goods need to be returned to the distributor/retailer for repair/replacement.
