# Contactor Panel

The Contactor Panel adds digital timer functionality to Infratech Simple On/Off Switches and Duplex/Stack Switches.

- Compatible with all Infratech single element or dual element heaters.
- Enables integration of timers and other 120 VAC controls, including smart switches.
- Maximum 6,000 watts, range 240 VAC per contactor.
- Ideal for indoor surface mount or flush mount applications (Type 1 enclosures, for indoor use only).
- Electrical wiring diagrams provided for installation.
