Jasper Green

Meet Jasper Green. Invite this soothing hue of nature inside your home and relax in the company of a muted beauty that whispers and murmurs, never shouts.

Ideal for a living room, bedroom or kitchen, there is no space that cannot be graced by Jasper Green. Pair it with earthy shades of brown and terracotta, or the sun-bleached white of driftwood and seashells. Add tactile and visual interest with grainy mineral surfaces and natural textiles from rope to rattan.

Embrace Jasper Green, Nippon Paint Colour of the Year 2020.

Be Inspired Design Trend

Your home is a manifestation of your style, taste and character. Which of these themes best represent you?

Industrial

To achieve an Industrial design, one needs to create an illusion of rough surfaces and materials that suggest an industrial past. The simplest way to show roughness is to leave some walls and surfaces unfinished.

One can also add weathered wood, exposed brick, industrial lighting fixtures and concrete to complete that “unfinished look”. Done right, the industrial look can range from the raw and edgy to chic and modern.

Strawberry Ice
NP R 1266 T

Urban Modern

Urban modern design is all about Cosmopolitan living and is a 'modern' update to the industrial design. It strives to be a haven for city dweller to recharge and has a soft industrial aesthetic that is trendy and stylish.

Refer to Page 06 for actual colour chip.

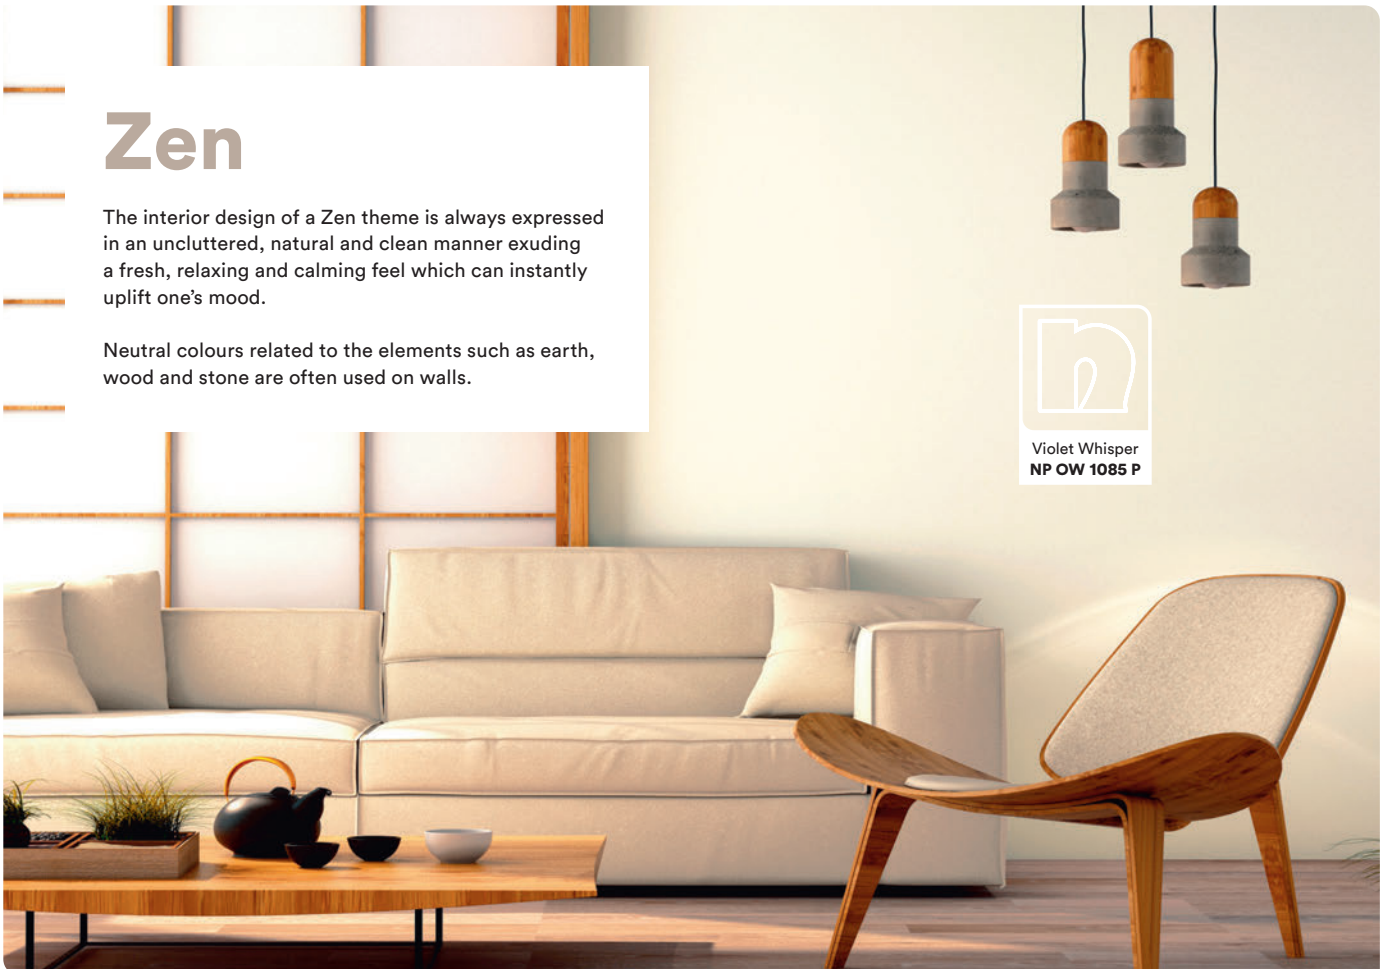

Zen

The interior design of a Zen theme is always expressed in an uncluttered, natural and clean manner exuding a fresh, relaxing and calming feel which can instantly uplift one's mood.

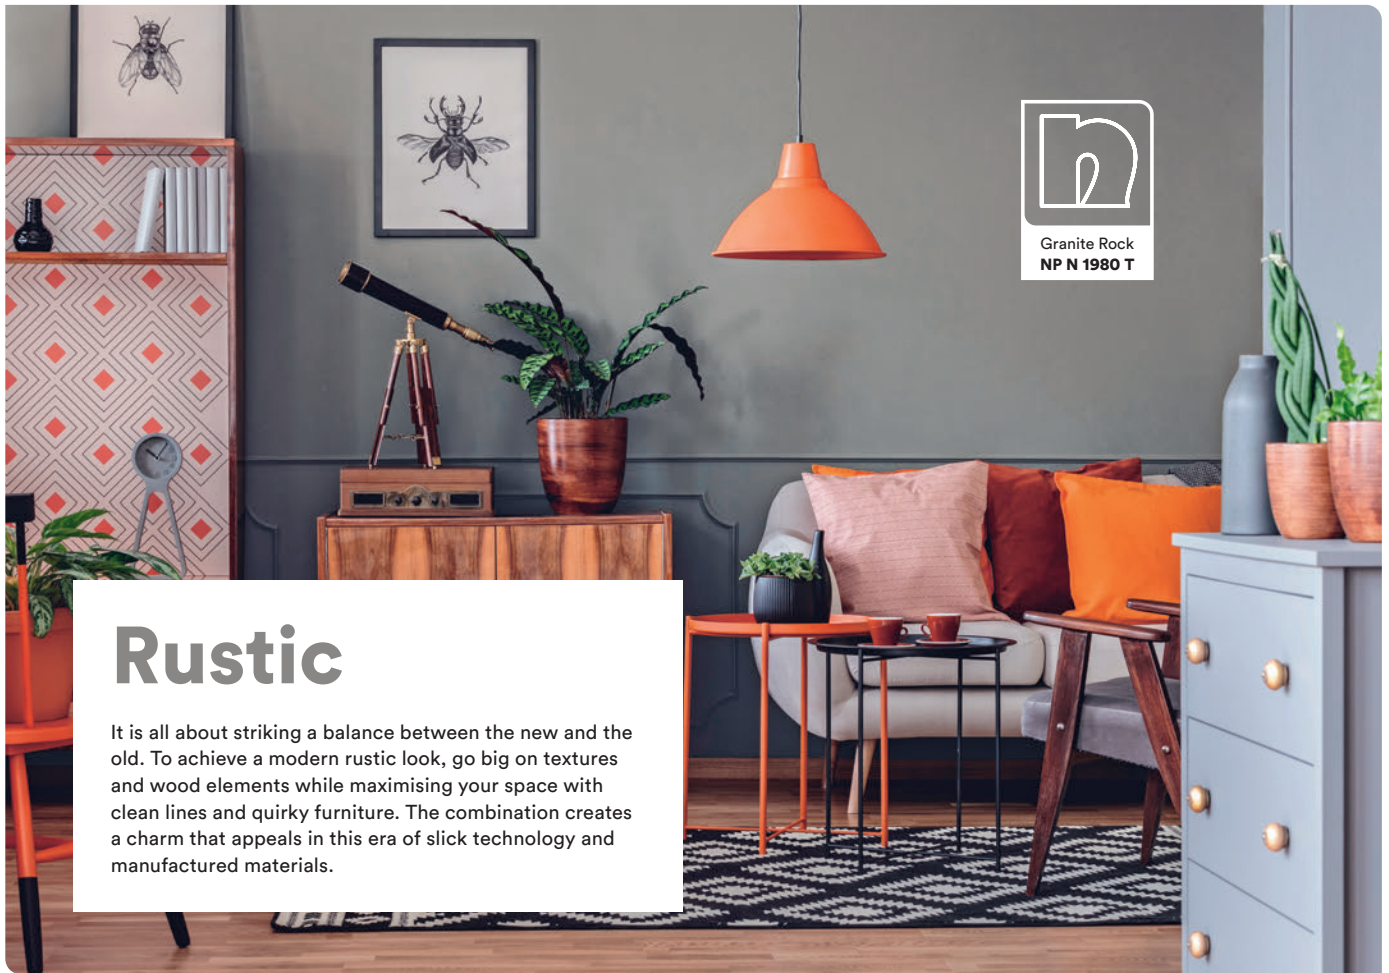

Neutral colours related to the elements such as earth, wood and stone are often used on walls.

Rustic

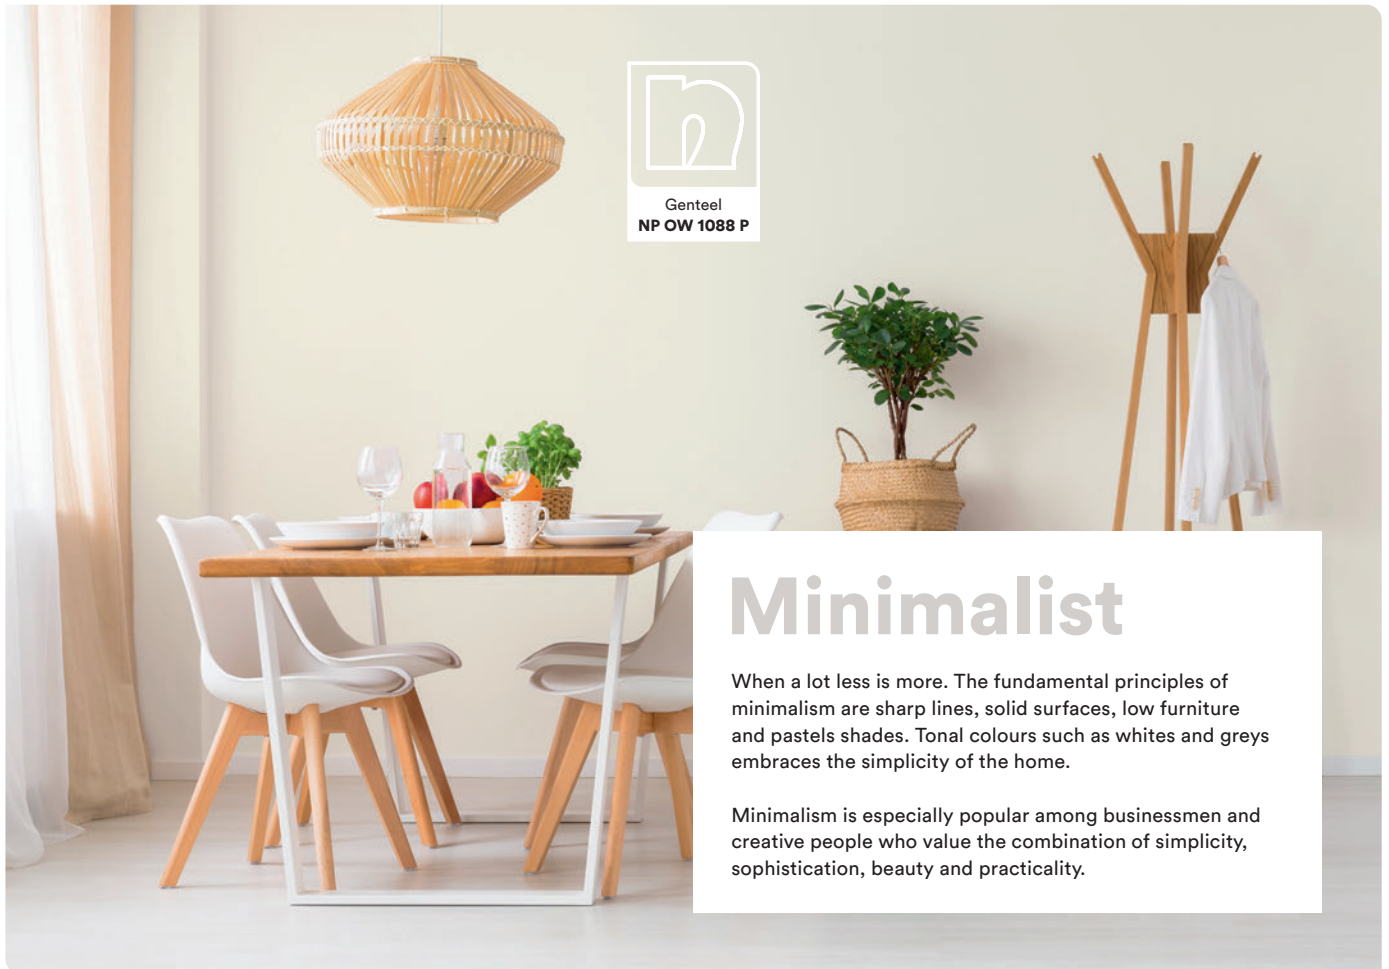

It is all about striking a balance between the new and the old. To achieve a modern rustic look, go big on textures and wood elements while maximising your space with clean lines and quirky furniture. The combination creates a charm that appeals in this era of slick technology and manufactured materials.

Scandinavian

The key principle of the Scandinavian style is prioritising function without sacrificing aesthetic.

Characteristics of this style are simple functional shapes, light coloured wood, simplistic decor, focus on natural lighting and warm colours and nuances, which compensate the lack of warmth and light in the harsh Northern climate. To bring more character to your space, add an eye-catching centrepiece to reflect your personality.

Minimalist

When a lot less is more. The fundamental principles of minimalism are sharp lines, solid surfaces, low furniture and pastels shades. Tonal colours such as whites and greys embraces the simplicity of the home.

Minimalism is especially popular among businessmen and creative people who value the combination of simplicity, sophistication, beauty and practicality.

Refer to Page 12 for actual colour chip.

Tropical

It's time to visit the tropics! If not by plane, then by a touch of design magic! Tropical interior design can involve the use of natural materials, such as wicker, rattan, bamboo and teak. Then again, many Hollywood Regency-style brooms filled with glossy furnishings go tropical with the help of fabrics featuring palm leaves, lattice print and cane motifs.

Theme of the Year

Nippon Paint

with you

through Life

Life is a story that writes itself, punctuated with milestones from first steps to first jobs, first children and more... Each chapter has its own set of challenges and goals, magic moments and precious memories.

Colour every stage of your life with Nippon Paint.

Nursery

What joy! News of a baby brings a burst of happiness and endless ripples of excitement. Not to mention a long list of decisions. To know or not to know the gender before delivery? And then there's the baby's name, and all those essential purchase decisions from the baby cot to the stroller and beyond.

Thankfully, choosing paint for your nursery is one of the easiest decisions you'll ever have to make.

Nippon Paint Odour-less EasyWash and Easy Wash are remarkably easy to wash, so that all signs of grubby little hands, food fights and finger-painting can be erased in a jiffy.

Happy, noisy, naughty, lovely, messy.... kids. Though sometimes they make you want to tear your hair out, you can't help loving them. How empty life would be without them. That said, how clean your walls would be. The good news is, kids and clean walls can co-exist in your home.

Kids

Teens

Teenagers are young adults, impassioned and empowered with minds and opinions of their own. Don't you dare tell them what to think, what to like, what to wear... or what colour to paint their bedroom.

Paint is one of the easiest and most dramatic ways to transform a room. Let your young adults choose the colour of their room. Or maybe they'd prefer a geometric mural with striking contrasting colours? Their space, their choice.

The wedding's over and you know you went on a honeymoon because you have the photos to prove it. Once the whirlwind of the nuptials has passed, you have your new home to think about. Finally, a space of your own. Industrial-chic, Scandinavian, resort-style —it's your call. And paint plays an important part in bringing every theme to life.

Just Married

Bachelor Pad

Eat when you feel like it. Eat where you feel like it. Eat everything in the fridge — because it's all yours. Living on your own has its advantages. You're in total control, and never have to fight over the remote control.

Solo dwellers should take full advantage of their absolute freedom of choice and paint their home exactly as they please. Go ahead, paint the ceiling black. Splash out with a feature wall in your favourite colour. Autonomy is awesome.

Congratulations on taking a leap of faith and working for yourself. A home office is a fantastic choice for a freelancer or start-up. Just think – you can work in your pyjamas, take a coffee break anytime you like, eat at your desk with your cat on your lap. (Hey, you're the boss, after all.) But, remember to draw the line between space for work and space for play.

Home Office

Pioneers

Your golden years herald happy days of long-awaited holidays, picking up new interests and revisiting old ones. The pressure of work and raising kids is a thing of the past. Perhaps there are grandchildren to brighten your days, and maybe you've downsized your home so you're no longer a slave to the housework. But of paramount importance is health. Nippon Paint makes functional paints with 'healthy' properties.

PAINT VOLUME CALCULATION

$$(\text{HEIGHT (m)} \times \text{LENGTH (m)})$$

Surface area to be painted

=

Total paint volume required per coat

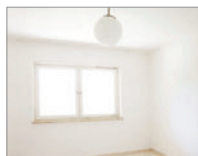

Surface coverage per litre per coat in metres

Eg. Painting Bedroom with Odour~less All-in-1

$$\left(\frac{2.5\text{m} \times 10\text{m}}{10\text{m}^2} \right) \text{ Litres} \times 2 \text{ Coats} = 2.5 \text{ Litres} \times 2 \text{ Coats} = 5 \text{ Litres}$$

Preparation Sequence

PREPARING THE GROUNDWORK

Clear out the room totally.

Clean up the area.

Cover all exposed surfaces with **Nippon Paint Plastic Drop Cloth**.

Paste the sockets and switches with **Nippon Paint Painters Tape**.

Use **Nippon Paint Plastic Drop Cloth** and **Painters Tape** to protect window frames and woodwork.

Cover and tape floor skirting with **Nippon Paint Plastic Drop Cloth**.

MENDING THE WALL with 5101 Odour~less Water-based Sealer or Vinilex 5170 Oil-based Sealer

Scrape off loose paint with a scraper and sand down for a smooth finish. Dust off.

Remove popped nails and fill up the dimpers with filler.

Patch up cracks or uneven surfaces with the appropriate filler.

Use fine grit sandpaper to sand down rough spots.

Clean surfaces to be painted. All surfaces must be dried thoroughly before painting.

Before painting, use a wall sealer (**5101 Odour~less sealer** or **Vinilex 5170 sealer**) to neutralise the alkali on the walls.

SEQUENCE OF PAINTING

1

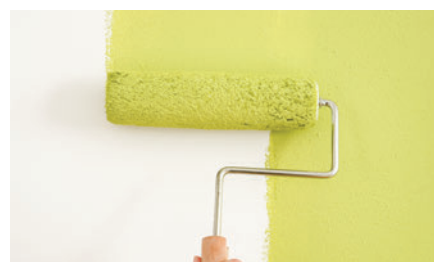

- A** - Always start with the **ceiling**
- B** - Followed by the **cornices**
- C** - Then the **walls**
- D** - And the **woodwork** around the doors and windows
- E** - Subsequently the **doors**
- F** - Lastly the **skirtings**. This prevents the other painted area from being ruined while painting

2

Use a brush and dip only one third of the brush bristles into the paint. Use long continuous strokes to form a neat line while painting difficult areas like the edges and corners first.

3

A wide brush or roller may be used to paint the walls, though the latter gives the best finish and is quicker. Do apply the paint from the top right hand corner of the first wall using overlapping strokes, in an up-down manner when moving from area to area.

4

Always apply more than one coat of paint. Let the first coat dry before painting another coat over. An indication is found on the can for the first coat's drying time.

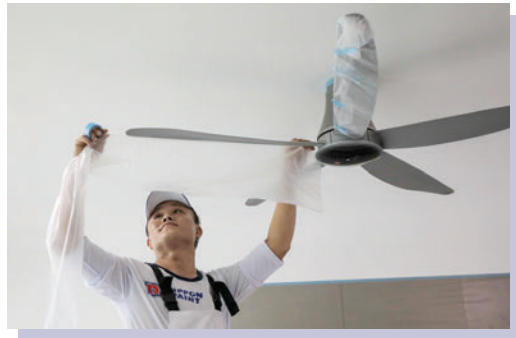

5

Upon completion, do wash all painting tools. Use water for emulsion paint and turpentine for oil-based paint.

Melissa

Engaging Nippon Paint for the repainting of my apartment was the best decision in my entire renovation plan. They were so prompt — from quotation to handover. Everything was professionally handled with top notch workmanship. I am recommending Nippon Paint to all my friends. Thanks for the great work!

Susan

We have not painted the place since we moved in 10 years ago. The Project Manager did a site inspection and gave good recommendations to solve the existing issues of the walls and ceiling. He was very polite, helpful and prompt in attending to all my queries.

Diana

The Project Manager and his team did an exceptional job painting our HDB unit. We had a lot of furniture and heavy items but they took on the daunting task with commendable professionalism. The team was friendly, efficient and accommodating. The care and detail of the workmanship is impressive.

“All furniture and items were wrapped carefully and cleaned up thoroughly. The only evidence they were here was my beautiful walls.”
