

MY CHINESE DRAGON PUPPET

1. Color and cut out Doudou's two heads, two tails and four feet. You can decorate them with beads, tissue paper, pompoms or any other material you can find!

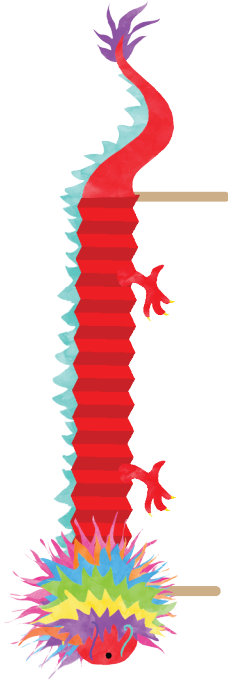

2. Cut the colored A4 cardstock in three long strips and fold them in an 'accordion' manner. Glue the strips together to make Doudou's long body.

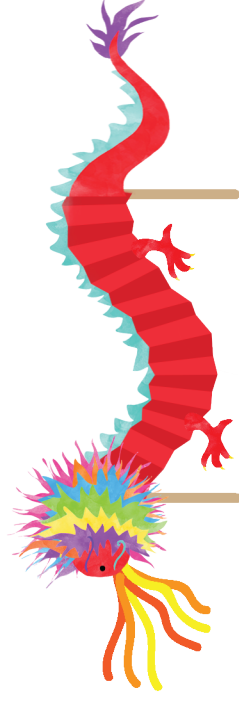

3. Place the beginning of the "accordion" body and one stick in the back side (white side) of Doudou's first head, and glue them together. Then, glue them together with the back of Doudou's second head, so that both colored heads are facing outwards.

4. Repeat step 3 with Doudou's two tails, the end of the body and the other stick to finish the dragon's body.

5. Glue the dragon's four feet (two on each side with the colored parts facing outwards) on the dragon's body.

6. You can use strips of colored tissue papers (not included) to create flames that come out of Doudou's mouth.

7. Hold Doudou by the sticks and make him dance and twirl!
