

Surgical Mask

Disposable · 3 Layers · High Filtration

Updated 22/10/2020

Technical Sheet

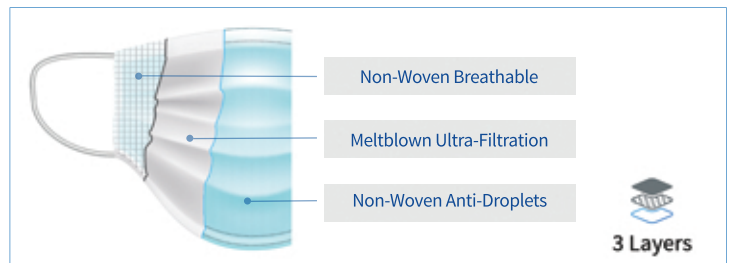

Most surgical masks are imported from Asia and low quality with a huge ecology negative impact.

At Bristol Mask, we manufacture locally for the medical industry, business and individual with high-quality and affordable products.

Features

- High Filtration $\geq 99.9\%$
- No Latex & Hypoallergenic
- Ultra Light & Comfortable
- Adjustable Nose Bridge
- Ultra Soft Ear Loops
- Medical Grade

The Bristol Mask mask is made of 3 non-woven layers with an outer layer splash resistant, a middle layer with high filtration meltblown and an inner layer ultra light and breathable.
