our mission & method

mission

Established in 1923, Blatt Billiards' mission is to provide our clients the old-world billiards pastime experience with superb quality and pride. We do this by virtue of our three core principles: superior hand craftsmanship, extraordinary customer service and our attention to billiard industry traditions.

method

Blatt Billiards dismisses all mass construction shortcuts in favor of time-tested hand manual techniques that yield individual works of art. Here, we continue to handcraft custom pool tables the way they were crafted over a century ago. It is our willingness to take the necessary time that makes Blatt Billiards tables the finest pool tables in the world.

masterwork

Masterwork pieces start with masterwork qualities, and as a result, we draw materials from all over the world. We craft tables that draw from authentic Italian marble, and fine wood sourced from across the country.

We refine the material, shape the wood, and put meticulous attention into every step of the process to create a product that reflects our attention to detail.

Our finely carved Cabaret table, custom built to order with choice of wood, cloth color with flared legs.

locations

Our New York City showroom allows clients to preview pool tables. In the spacious, airy location on the West Side, our sales team walks clients step by step through the custom pool table construction process.

Furthermore, we also run a local Dallas, Texas showroom for our Southern clientele. Our workshop in New Jersey provides state of the art techniques and equipment to construct pool tables that ship across the country, ready to create fine pieces of art and entertainment.

service tradition

Our locations are set up to provide full customer support from the point of sale to specialty design to construction, delivery and installation. We pride ourselves on making fast, efficient and friendly service the core of our business model.

We cater to our client's needs and are happy to discuss whatever needs you have, from residential projects all the way up to corporate headquarter packages.

consultation

If you're ready to consider working with us, give us a call today. We would love to hear from you. Our contact information and some of our promotional materials are available on our website. Also check out our social media.
