Rana™ Desk Lamp Operating Instructions
(Part #'s: 69D250, 69D255-1 & 69D251-XX-C)

PARTS NEEDED:	
Desk Lamp	Power Supply

IMPORTANT SAFETY INSTRUCTIONS. READ CAREFULLY FOR YOUR PROTECTION AND SAVE ALL INSTRUCTIONS.
*This power supply must be installed according to the National Electrical Code and local building codes.
*To avoid a hazard to children, account for all parts and destroy all packing materials.
*Caution: The lamp should never be carried by the horizontal or vertical arm alone.
*Do not use in wet location.
* To reduce the risk of fire and electrical shock, use only elio® power supply provided.
*Use wire management to ensure that any excess cords are tucked away and will not pose a tripping hazard.

GENERAL NOTES
*To clean your light, use a soft, dry cloth. Spot clean with warm soapy water. Do not use abrasive cleaners or harsh chemicals.

1. Insert the lamp head onto the post by making sure the light bar is pointed down, and push head onto base until secure.

2. To install the clamp mount version turn the knob counter-clockwise (left) to loosen the clamp. Place clamp in desired location and turn knob clockwise (right) to tighten on to desk.

Connect plug on cord to light with plug on cord to power supply. Plug into grounded outlet.

3. The red illuminated switch is at the end of the head of the lamp. Press to turn light on. To use the dimming function, press and hold the switch in. It will gradually dim to its lowest cycle and then start to brighten again. Release the switch when the light intensity is at the desired level.   The switch uses technology that allows it to 'remember' where the last setting was, if power is interrupted. When power is restored, the light will return to most recent settings.
