BASEBALL BAT

BB-2

This baseball bat is advocated for adults who can generate big tools and control shot control. This one-piece, all-aluminum baseball bat is made from an advanced aviation terminus alloy design, which understands it's super tough without adding weight with its easy rebound and resistance to bumps and bumps. damage during normal play. Longer barrel and swing feel, delivering higher performance and increased swing speed. Not to mention that the graphic on this stick gives an aggressive look to the bat.
