

## Chevrolet Trail Blazer (2002-2007)

PART NUMBER: CV-78-03-L

**PLEASE READ COMPLETE INSTRUCTIONS BEFORE INSTALLING THIS Pro.Fit Legend.**

All instructions assume a drivers seat vantage point. Caution is advised when removing and reassembling wood or plastic parts of a dash. Applying unnecessary force or pressure may cause a piece to crack or break.

**TOOLS REQUIRED:** Dash Trim Removal Tool, 7mm open end wrench, masking tape, Phillips screwdriver

**PARTS INCLUDED:** Pro.Fit Legend, instructions

**LOCATION:** Right of radio

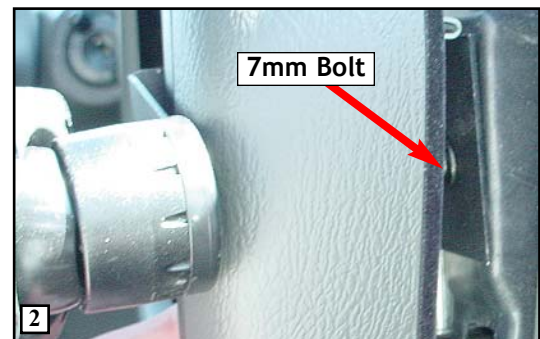

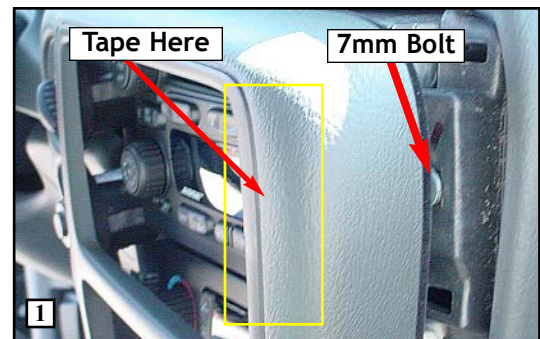

**STEP 1.** Begin by setting the emergency brake and putting the gear shift into neutral. Directly below the climate control panel and to the left of the cigarette lighter is a small cubby hole. Remove one (1) Phillips screw from the back of the cubby hole. Remove two (2) Phillips screws from the bezel above the speedometer.

**STEP 2.** Cover the right side of the radio bezel with masking tape to prevent scratches. **Photo 1.** Insert a dash trim removal tool behind the lower right corner of the radio / climate control bezel and pry outward until a retainer clip is released. **Photo 3.** Work the trim tool counter-clockwise around the bezel, pulling outward to release clips. Continue releasing clips until the 7mm factory bolt to the right of the radio is accessible. **Photo 1.** It is not necessary to remove the bezel from the dash.

**STEP 3.** Remove the bolt with a 7mm open end wrench. Place the Legend between the radio and radio bezel, aligning the mounting hole over the 7mm bolt hole. **Photo 2.** Replace bolt and tighten.

**STEP 3.** Carefully re-assemble the dash in reverse order. The bezel will fit tightly against the Legend. Remove masking tape and place gear shift into park.

This completes the installation of your Legend.
