

Chevrolet Colorado 2014-2018

GMC Canyon 2014-2018

PART NUMBER: DG-71-05-L

PLEASE READ COMPLETE INSTRUCTIONS BEFORE INSTALLING THIS VSM G3

All instructions assume a driver's seat vantage point. Caution is advised when removing and reassembling wood or plastic parts of a dash. Applying unnecessary force or pressure may cause a piece to crack or break.

When properly installed, the metal between the ball and the small hole is all that is exposed. (Some exceptions apply).

TOOLS REQUIRED: Dash Trim Removal Tool (DTRT), Electric Screw Driver OR Cordless Drill, Phillips Screwdriver

PARTS INCLUDED: VSM Legend, 2-#8 x 3/8" Screws

LOCATION: Right of Radio

Step 1: Use your DTRT to pop loose the bezel around the radio and climate control. (Photo #1)

Step 2: Remove the four screws in Photo #1 while holding the radio and climate control. Remove this assembly and there is no need to disconnect any of the wires. Set the assembly aside to continue working.

Step 3: Align the VSM Legend mount on the right lower side of the radio and climate control area, just below the bottom outside retainer clip slot (Photo #2). Mark with a sharpie the location of the mount holes to drill pilot holes or use your cordless drill to attach using the provided screws.

Step 4: Reassemble, return radio and climate control unit to its original location. Return the four screws holding it into place. Pop the bezel back on to complete the install.

Pro.Fit International, Inc. ® may not be held liable for any damage to a vehicle before, during, or after the installation or removal of this VSM G3. Pro.Fit International may not be held liable for any personal injury resulting from accident or improper installation.
