

Freightliner Century Class Tractor (1997-2004) Freightliner Columbia (2005-2006)

PART NUMBER: FR-31-97

PLEASE READ COMPLETE INSTRUCTIONS BEFORE INSTALLING THIS Pro.Fit VSM™.
All instructions assume a drivers seat vantage point. * Caution is advised when removing and reassembling wood or plastic parts of a dash. Applying unnecessary force or pressure may cause a piece to crack or break.

Pro.Fit logo and part number will be right side up and readable when installed.

TOOLS REQUIRED: T-20 Torx driver.

PARTS INCLUDED: **Pro.Fit VSM™**, instructions.

LOCATION: Right side of dash

STEP 1.

Begin by locating the trim panel which surrounds the radio. Grasp the right side of the panel and pull toward you to release two (2) clips that secure the end of the trim panel. Loosen the trim panel just enough to expose the Torx screw which holds the end trim piece in place. The end trim piece is located to the right and just above the radio. Using Torx driver, remove the Torx screw and set aside. Remove end trim piece by grasping with hands and pulling toward you to release one (1) clip on the top of end trim piece. **CAUTION: Clip is very fragile.** Set end trim piece aside.

STEP 2.

Using Torx driver locate and remove two (2) Torx head screws which hold the simulated wood grain trim panel. Set screws aside. Align **Pro.Fit VSM™** with screw holes. Reinsert factory Torx screws and tighten.

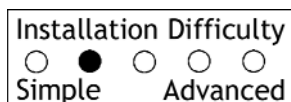

STEP 3.

Replace end trim piece. Replace Torx screw behind lower trim panel, then secure lower trim panel surrounding radio back into place. Install phone holder onto **Pro.Fit VSM™**.

This completes the installation of your **Pro.Fit VSM™**.
