

Infiniti QX56 2004-2006
Nissan Armada 2004-2006 (BOSE Radio Only)
Nissan Titan 2004-2006 (BOSE Radio Only)

PART NUMBER: IF-72-04-L

PLEASE READ COMPLETE INSTRUCTIONS BEFORE INSTALLING THIS Pro.Fit Legend.

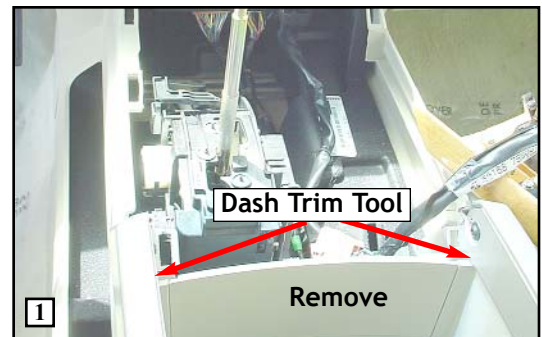

All instructions assume a drivers seat vantage point. Caution is advised when removing and reassembling wood or plastic parts of a dash. Applying unnecessary force or pressure may cause a piece to crack or break.

TOOLS REQUIRED: Dash Trim Removal Tool, 5/64" drill bit and drill, # 2 Phillips screwdriver

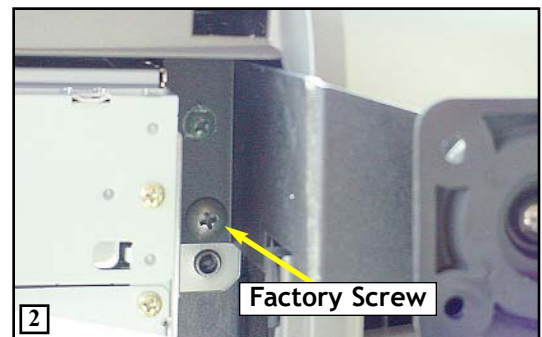

PARTS INCLUDED: Pro.Fit Legend, instructions, one (1) # 8 x 1/2" screws

LOCATION: Right of radio

STEP 1. Set parking brake and place gear shift into neutral. Remove the gear shift knob by unscrewing it in a counter-clockwise direction. Insert a dash trim removal tool under the left, back corner of the gear shift bezel and pry down to release a clip. **Photo 1.** Do the same on the right side. Lift up the back end of the bezel and slide back. Lift bezel over shifter and set aside. Don't disconnect wiring.

STEP 2. Remove the small panel from the back of shifter by pulling back on the top and then lifting up. **Photo 1.** Insert the trim tool behind the upper right corner of the radio panel and pry outward, releasing a retainer clip. Working the tool around the panel, continue pulling outward until all clips are released. Let panel hang down without removing any wiring.

STEP 3. Remove the factory screw to the right of the radio. **Photo 2.** Align the bottom hole of the Legend VSM over the factory screw hole. Using the Legend as a guide, mark the location of the top screw hole. Set Legend aside. Drill a pilot hole at the marked location using a 5/64" drill bit and drill. Align the Legend over the holes and replace the factory screw, insert one (1) # 8 x 1/2" screws and tighten.

STEP 4. Re-assemble the dash in reverse order. Replace the shift bezel before replacing the small panel. This completes the installation of your Legend.
