

Hyundai Sonata 2002-2005

PART NUMBER: MV-50-03-G3

PLEASE READ COMPLETE INSTRUCTIONS BEFORE INSTALLING THIS VSM G3

All instructions assume a drivers seat vantage point. Caution is advised when removing and reassembling wood or plastic parts of a dash. Applying unnecessary force or pressure may cause a piece to crack or break.

**When properly installed, the metal between the ball and 2 small holes is all that is exposed.
(Some exceptions apply).**

TOOLS REQUIRED: #2 Phillips screwdriver, drill and 5/64" bit, Dash Trim Removal Tool (DTRT), marking pen

PARTS INCLUDED: VSM G3, A Plate, J Stem, two (2) #8 x 1/2" screws

LOCATION: Right of radio

STEP 1. Insert dash trim tool behind upper-left corner of the air vents and radio trim bezel. Photo #1. Using a gentle twisting motion, pry outward to release all the clips. Disconnect wiring harnesses and set bezel aside.

STEP 2. Place the VSM G3 against the dash and to the right of the radio. Slide the VSM G3 back until it touches and align the top so it is even with the words 'BASS' and 'TREB'. Photo #2.

STEP 3. Using the holes in the VSM G3 as a guide, mark pilot holes with marking pen. Set the mount aside. Carefully drill pilot holes with 5/64" drill bit and drill. Place the G3 over pilot holes and align. Insert provided screws and tighten with #2 Phillips screwdriver.

STEP 4. Assemble the dash in reverse order, securing all clips and wiring. This completes the installation of your VSM G3.

Note: See the Assembly Instructions for G3 Components for additional information.
