

## Mazda5 2008-2010

**PART NUMBER: MV-50-03-G3**

**PLEASE READ COMPLETE INSTRUCTIONS BEFORE INSTALLING THIS VSM G3**

All instructions assume a drivers seat vantage point. Caution is advised when removing and reassembling wood or plastic parts of a dash. Applying unnecessary force or pressure may cause a piece to crack or break.

**When properly installed, the metal between the ball and 2 small holes is all that is exposed.  
(Some exceptions apply).**

**TOOLS REQUIRED:** 5/64" drill bit and drill, marking pen

**PARTS INCLUDED:** VSM G3, A Plate, J Stem, two (2) #8 x 1/2" screws, Phillips screwdriver

**LOCATION:** Right of Radio

**STEP 1.** Open glove box and place the VSM G3 flush to the glove box wall as pictured in Photo #2. Be sure to attempt to place the VSM G3 in the exact location as pictured, and that the VSM G3 ball provides plenty of clearance for the glove box to open.

**STEP 2.** When the VSM G3 is in position, mark the pilot holes with a marking pen. Use a 5/64" drill bit and drill out the marked locations. Only drill deep enough to open up a pilot hole, no more than 1/4 of an inch.

**STEP 3.** Place the VSM G3 over the pilot holes and secure the mount to the dash molding using the two (2) provided #8 x 1/2" screws and secure, using a Phillips screwdriver. Once the VSM G3 has been secured and is in place, close the glove box. You have successfully installed your VSM G3.

**Note:** See the Assembly Instructions for G3 Components for additional information.
