

Hyundai Tiburon 2002-2006

PART NUMBER: MV-50-03-G3

PLEASE READ COMPLETE INSTRUCTIONS BEFORE INSTALLING THIS VSM G3

All instructions assume a drivers seat vantage point. Caution is advised when removing and reassembling wood or plastic parts of a dash. Applying unnecessary force or pressure may cause a piece to crack or break.

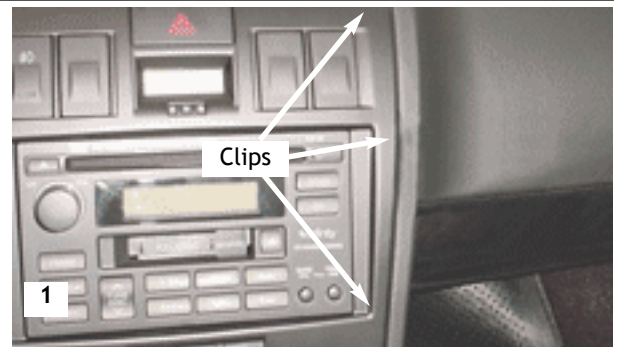

**When properly installed, the metal between the ball and 2 small holes is all that is exposed.
(Some exceptions apply).**

TOOLS REQUIRED: #2 Phillips screwdriver, drill and 5/64" bit, Dash Trim Removal Tool (DTRT), marking pen

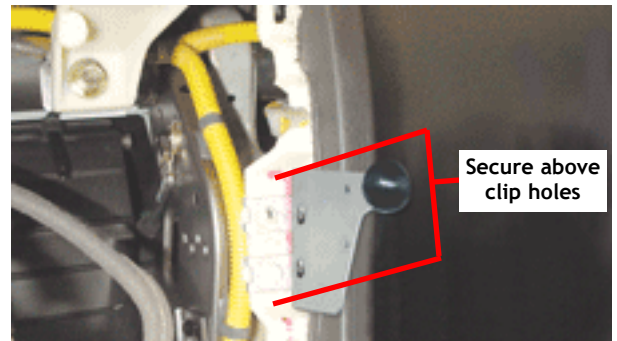

PARTS INCLUDED: VSM G3, A Plate, J Stem, two (2) #8 x 1/2" screws

LOCATION: Right of radio

STEP 1. Insert the DTRT behind the lower left corner of the radio and climate control bezel. Pry the bezel outward to release a retainer clip until a total of six (6) clips are released. Photo #1. Pull the top of the bezel outward, and disconnect the attached wires. Set bezel aside.

STEP 2. Remove four (4) screws that hold the radio in place. There are two (2) clips on the left and right sides of the radio and climate control module. Slide the radio and climate control module out of its cavity and let hang down. Do not disconnect any wiring to the radio.

STEP 3. Place the VSM G3 against the dash pad to the right of the radio, above a clip holes. Photo #2. Using the holes of the G3 as a guide, mark the location of the two (2) holes and drill two (2) pilot holes. Align the G3 over the pilot holes, insert two (2) #8 x 1/2" screws and tighten.

STEP 4. Assemble the dash in reverse order, remembering to reattach wiring to bezel. This completes the installation of your VSM G3.

Note: See the Assembly Instructions for G3 Components for additional information.
