

Hyundai XG350 (2002-2005)

PART NUMBER: MV-50-03-L

PLEASE READ COMPLETE INSTRUCTIONS BEFORE INSTALLING THIS Pro.Fit Legend.

All instructions assume a drivers seat vantage point. Caution is advised when removing and reassembling wood or plastic parts of a dash. Applying unnecessary force or pressure may cause a piece to crack or break.

TOOLS REQUIRED: #2 Phillips screwdriver, drill and 5/64" bit, Dash trim removal tool (DM-40-22), 10mm

PARTS INCLUDED: nut driver, marking pen

Pro.Fit Legend, instructions, two (2) # 8 x 1/2" screws.

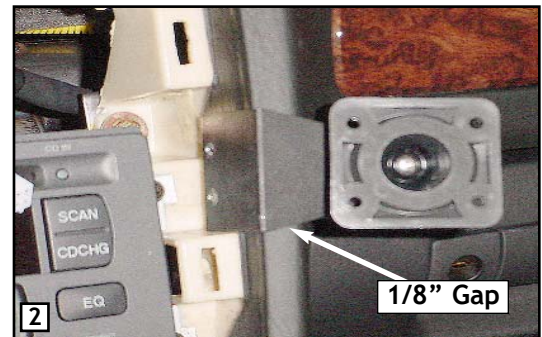

LOCATION: Right of radio

STEP 1. Insert the dash trim removal tool behind the lower left corner of the radio & climate control bezel. Pry the bezel outward to release a retainer clip. Work the trim tool around the bezel until a total of six (6) clips are released. (Photo # 1). Pull the top of the bezel outward, and disconnect the attached wires. Set bezel aside.

STEP 2. Remove the eight (8) screws that hold the radio in place. Slide the radio & climate control module out of its cavity and let hang down. Do not disconnect any wiring to the radio.

STEP 3. Place the LEGEND against the dash pad to the right of the radio, resting the bottom edge of the LEGEND on a small ridge. (Photo # 2). Make sure that the Legend is away from the dash pad approximately 1/8".

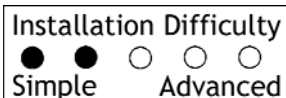

STEP 4. Using the Legend as a guide, mark the location of two (2) screw holes. Set Legend aside. Drill two (2) pilot holes at the marked location using a 5/64" drill bit and drill. Align the Legend over the pilot holes, insert two (2) #8 x 1/2" screws and tighten.

STEP 5. Re-assemble the dash in reverse order. Remember to reattach wiring to bezel. This completes the installation of your Legend.
